## Meditations (VII) for any ensemble

2019

The work consists in four hundred short pieces for any instrument. The pieces can be performed in any order or combination on any number and combination of music instruments. The musicians play without a common time. Intonation need not be agreed upon. Duration is free.

1.

1. Play one long and one short note in a somewhat low register with a small interval between them. Count to five.
2. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
3. Play one long note in a somewhat high register. Count to five.
4. Play one long and one short note in a slightly low register with a large interval between them. Count to seven.
5. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
6. Play one long and one short note in a slightly low register with a large interval between them. Count to nine.
7. Play one short note in a middle register. Count to six.
8. Play two long unequal notes in the lowest register with a large interval between them. Count to nine.
9. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
10. Play one long note in the lowest register. Count to six.
11. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to ten.
12. Play one long and one short note in a somewhat high register with a large interval between them. Count to nine.

2.

1. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to six.
2. Play two long unequal notes in a somewhat high register with a small interval between them. Count to seven.
3. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
4. Play one long and one short note in a middle register with a small interval between them. Count to seven.
5. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
6. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
8. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
9. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
10. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.

3.

1. Play one long and one short note in a somewhat low register with a small interval between them. Count to six.
2. Play one long note in the highest register. Count to six.
3. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
4. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
5. Play one long and one short note in a slightly high register with a small interval between them. Count to five.
6. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
8. Play one long note in a slightly low register. Count to six.
9. Play two long unequal notes in a somewhat high register with a small interval between them. Count to nine.
10. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to six.

4.

1. Play two long unequal notes in the lowest register with a small interval between them. Count to seven.
2. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
3. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
4. Play one long note in a somewhat high register. Count to six.
5. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
6. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
7. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
8. Play one long note in a somewhat low register. Count to nine.
9. Play one long note in a somewhat high register. Count to seven.
10. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
11. Play one short note in a somewhat low register. Count to eight.
12. Play two long unequal notes in the highest register with a small interval between them. Count to ten.
13. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to seven.
14. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.

5.

1. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
2. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
3. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
4. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
5. Play one long note in a somewhat high register. Count to six.
6. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
7. Play two long unequal notes in a somewhat low register with a small interval between them. Count to five.
8. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to seven.
9. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
10. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
11. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to ten.
12. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to seven.

6.

1. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
2. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
3. Play one short note in a slightly high register. Count to five.
4. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
5. Play one long note in a middle register. Count to five.
6. Play two long unequal notes in a middle register with a small interval between them. Count to seven.
7. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to nine.
8. Play one long note in a somewhat low register. Count to ten.

7.

1. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
2. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
3. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to ten.
4. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
5. Play one long and one short note in a slightly low register with a large interval between them. Count to six.
6. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
7. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to six.
8. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.

8.

1. Play one long and one short note in the highest register with a large interval between them. Count to ten.
2. Play one long note in a slightly low register. Count to nine.
3. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
4. Play one short note in a somewhat low register. Count to seven.
5. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
6. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
7. Play one long and one short note in a somewhat high register with a small interval between them. Count to seven.
8. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
9. Play one short note in a somewhat high register. Count to eight.
10. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to seven.
11. Play two long unequal notes in the highest register with a large interval between them. Count to seven.

9.

1. Play one long and one short note in a slightly low register with a small interval between them. Count to five.
2. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
3. Play one short note in a somewhat high register. Count to seven.
4. Play one short note in a slightly high register. Count to ten.
5. Play one long note in a somewhat high register. Count to seven.
6. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
7. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
8. Play one long note in the lowest register. Count to ten.
9. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to nine.
10. Play one long note in a somewhat high register. Count to six.
11. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
12. Play two long unequal notes in a somewhat high register with a small interval between them. Count to eight.

10.

1. Play one short note in the lowest register. Count to eight.
2. Play one long and one short note in a somewhat low register with a large interval between them. Count to ten.
3. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to eight.
4. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
5. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
6. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to five.
7. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
8. Play one long note in the highest register. Count to seven.
9. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to six.

11.

1. Play one long note in a middle register. Count to seven.
2. Play one long and one short note in a slightly low register with a small interval between them. Count to nine.
3. Play one short note in the highest register. Count to six.
4. Play one long note in the highest register. Count to nine.
5. Play one long note in a somewhat high register. Count to seven.
6. Play one short note in the lowest register. Count to ten.
7. Play two long unequal notes in the lowest register with a small interval between them. Count to five.
8. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
9. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.
10. Play one long note in a somewhat high register. Count to eight.
11. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
12. Play two long unequal notes in the highest register with a large interval between them. Count to seven.

12.

1. Play one long note in the lowest register. Count to five.
2. Play one long and one short note in a slightly low register with a small interval between them. Count to nine.
3. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to seven.
4. Play one long note in a middle register. Count to nine.
5. Play one long and one short note in a slightly high register with a small interval between them. Count to eight.
6. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
7. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to six.
8. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
9. Play one short note in a slightly high register. Count to seven.
10. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
11. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
12. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to ten.
13. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.

13.

1. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to ten.
2. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
3. Play one long and one short note in the highest register with a large interval between them. Count to nine.
4. Play one short note in a somewhat high register. Count to eight.
5. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to five.
6. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to five.
7. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to five.
8. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
9. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
10. Play two long unequal notes in the lowest register with a large interval between them. Count to five.
11. Play two long unequal notes in a slightly high register with a large interval between them. Count to five.
12. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to eight.
13. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
14. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to ten.

14.

1. Play two long unequal notes in a slightly low register with a large interval between them. Count to ten.
2. Play one short note in a somewhat high register. Count to ten.
3. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
4. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.
6. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
7. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to ten.
8. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
9. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to ten.

15.

1. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
2. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to ten.
3. Play one long and one short note in the lowest register with a small interval between them. Count to seven.
4. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
5. Play one short note in a somewhat high register. Count to ten.
6. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
7. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
8. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
9. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
10. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to eight.
11. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
12. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.

16.

1. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
2. Play two long unequal notes in the highest register with a small interval between them. Count to eight.
3. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
4. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
5. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to six.
6. Play one long note in a slightly low register. Count to ten.
7. Play two long unequal notes in a slightly high register with a small interval between them. Count to seven.
8. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to ten.

17.

1. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to six.
2. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
3. Play one short note in the lowest register. Count to six.
4. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
5. Play one short note in a slightly low register. Count to ten.
6. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
7. Play two long unequal notes in a slightly high register with a small interval between them. Count to seven.
8. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
9. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to six.
10. Play one long note in the lowest register. Count to five.
11. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
12. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
13. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to five.
14. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.

18.

1. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes in a middle register with a large interval between them. Count to ten.
3. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to seven.
4. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
5. Play one long note in a slightly high register. Count to ten.
6. Play one long and one short note in a somewhat low register with a small interval between them. Count to five.
7. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to six.
8. Play one long note in a slightly low register. Count to seven.
9. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
10. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
11. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to seven.

19.

1. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes in a slightly low register with a large interval between them. Count to ten.
3. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to nine.
4. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
5. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
6. Play one long note in a somewhat high register. Count to eight.
7. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
8. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
9. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
10. Play one long and one short note in a slightly low register with a small interval between them. Count to five.
11. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
12. Play one long note in a somewhat high register. Count to eight.
13. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
14. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.

20.

1. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
2. Play one short note in a somewhat low register. Count to nine.
3. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to six.
4. Play one short note in a slightly low register. Count to six.
5. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
6. Play two long unequal notes in a somewhat high register with a small interval between them. Count to nine.
7. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to nine.
8. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.

21.

1. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
2. Play one long note in the lowest register. Count to nine.
3. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to nine.
4. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
5. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.
6. Play two long unequal notes in a slightly high register with a small interval between them. Count to eight.
7. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to six.
8. Play one long and one short note in the lowest register with a small interval between them. Count to five.
9. Play two long unequal notes in a somewhat low register with a small interval between them. Count to seven.
10. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.

22.

1. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to seven.
2. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to eight.
3. Play one long note in the lowest register. Count to six.
4. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
5. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
6. Play one short note in a somewhat high register. Count to seven.
7. Play two long unequal notes in a middle register with a large interval between them. Count to six.
8. Play one short note in a somewhat low register. Count to seven.
9. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to eight.
10. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
11. Play one short note in a slightly low register. Count to nine.
12. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to seven.

23.

1. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
2. Play one long note in a somewhat low register. Count to ten.
3. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to ten.
4. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
5. Play one short note in the highest register. Count to five.
6. Play one long note in the highest register. Count to five.
7. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to eight.
8. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.
9. Play one short note in a slightly low register. Count to nine.
10. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.

24.

1. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to nine.
3. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
4. Play one long note in a middle register. Count to five.
5. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
6. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
7. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
8. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
9. Play two long unequal notes in the lowest register with a large interval between them. Count to seven.

25.

1. Play two long unequal notes in a middle register with a small interval between them. Count to seven.
2. Play one long and one short note in the highest register with a small interval between them. Count to nine.
3. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
4. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
5. Play one long and one short note in a slightly high register with a small interval between them. Count to nine.
6. Play one long note in a somewhat low register. Count to seven.
7. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
8. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to ten.
9. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.

26.

1. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
2. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
3. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
4. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
5. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
6. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to seven.
7. Play one long note in a middle register. Count to nine.
8. Play one long note in a somewhat low register. Count to five.
9. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
10. Play one long note in the lowest register. Count to seven.

27.

1. Play two long unequal notes in a slightly high register with a large interval between them. Count to seven.
2. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to eight.
3. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
4. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.
5. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
6. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
7. Play one long note in a slightly high register. Count to five.
8. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.

28.

1. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
2. Play one short note in a somewhat low register. Count to six.
3. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
4. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.
5. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to ten.
6. Play one long and one short note in the lowest register with a large interval between them. Count to nine.
7. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.
8. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to seven.
9. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
10. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
11. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
12. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
13. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to six.
14. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to five.

29.

1. Play one long note in a slightly low register. Count to nine.
2. Play two long unequal notes in a slightly high register with a large interval between them. Count to five.
3. Play two long unequal notes in a somewhat low register with a large interval between them. Count to seven.
4. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in a middle register with a small interval between them. Count to nine.
6. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to nine.
7. Play one long and one short note in a somewhat low register with a large interval between them. Count to nine.
8. Play one long note in the highest register. Count to ten.
9. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.

30.

1. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to seven.
2. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
3. Play one long note in the lowest register. Count to six.
4. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
5. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
6. Play one long and one short note in a slightly high register with a small interval between them. Count to ten.
7. Play two long unequal notes in a middle register with a large interval between them. Count to six.
8. Play one long and one short note in the lowest register with a large interval between them. Count to five.
9. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
10. Play one long note in a slightly low register. Count to eight.
11. Play one short note in a slightly high register. Count to ten.
12. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.

31.

1. Play one long and one short note in the lowest register with a small interval between them. Count to nine.
2. Play one long note in a slightly low register. Count to six.
3. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
4. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
5. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to six.
6. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
7. Play one long note in a somewhat high register. Count to five.
8. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
9. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
10. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
11. Play one long note in the highest register. Count to seven.
12. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.

32.

1. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
2. Play two long unequal notes in the lowest register with a large interval between them. Count to six.
3. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
4. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in the highest register with a large interval between them. Count to six.
6. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
7. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
8. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to five.

33.

1. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
2. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
3. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to five.
4. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
5. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
6. Play one short note in a slightly high register. Count to nine.
7. Play two long unequal notes in the highest register with a large interval between them. Count to eight.
8. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
9. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to six.
10. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.
11. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to six.

34.

1. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to seven.
2. Play one long and one short note in the lowest register with a small interval between them. Count to eight.
3. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
4. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to seven.
5. Play one long and one short note in a slightly low register with a small interval between them. Count to six.
6. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to seven.
8. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to six.
9. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
10. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
11. Play one long note in the highest register. Count to six.
12. Play one long note in a slightly high register. Count to nine.
13. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.

35.

1. Play one long note in the lowest register. Count to six.
2. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
3. Play one long note in a somewhat low register. Count to six.
4. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to eight.
5. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
6. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to ten.
7. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
8. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to eight.
10. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
11. Play one long and one short note in a slightly high register with a small interval between them. Count to six.
12. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
13. Play one short note in a somewhat high register. Count to seven.
14. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.

36.

1. Play two long unequal notes in the highest register with a large interval between them. Count to nine.
2. Play one long note in a somewhat high register. Count to seven.
3. Play one long note in a slightly high register. Count to nine.
4. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to six.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to six.
6. Play one long note in a somewhat high register. Count to nine.
7. Play one short note in a somewhat high register. Count to nine.
8. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to ten.
9. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
10. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
11. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to five.
12. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
13. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to ten.
14. Play two long unequal notes in a middle register with a small interval between them. Count to five.

37.

1. Play one long note in the highest register. Count to seven.
2. Play two long unequal notes in a slightly high register with a small interval between them. Count to seven.
3. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
4. Play one long note in a somewhat high register. Count to nine.
5. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
6. Play one short note in a slightly high register. Count to seven.
7. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
8. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to seven.

38.

1. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
2. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
3. Play two long unequal notes in a slightly high register with a large interval between them. Count to ten.
4. Play one long note in a somewhat high register. Count to ten.
5. Play one long note in a somewhat high register. Count to five.
6. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
7. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to ten.
8. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
9. Play one long note in the highest register. Count to ten.
10. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
11. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to six.
12. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.

39.

1. Play one long note in a somewhat high register. Count to nine.
2. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
3. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes in a middle register with a large interval between them. Count to five.
5. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to five.
6. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
7. Play one long note in a slightly low register. Count to eight.
8. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
9. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
10. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.

40.

1. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
2. Play two long unequal notes in the highest register with a small interval between them. Count to five.
3. Play one long note in the highest register. Count to six.
4. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
5. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
6. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
7. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.

41.

1. Play two long unequal notes in a somewhat high register with a small interval between them. Count to eight.
2. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to eight.
3. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
4. Play one short note in a slightly high register. Count to ten.
5. Play two long unequal notes in a slightly high register with a large interval between them. Count to eight.
6. Play one long and one short note in the highest register with a small interval between them. Count to eight.
7. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to seven.
8. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.

42.

1. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
2. Play one long note in a slightly high register. Count to nine.
3. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to ten.
4. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
5. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
6. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to nine.
7. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
8. Play two long unequal notes in a middle register with a small interval between them. Count to seven.
9. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
10. Play two long unequal notes in a somewhat low register with a small interval between them. Count to five.
11. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
12. Play one long note in a somewhat high register. Count to nine.
13. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to eight.

43.

1. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
2. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
3. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
4. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to ten.
5. Play one short note in a somewhat high register. Count to five.
6. Play one long note in a middle register. Count to nine.
7. Play two long unequal notes in a somewhat low register with a large interval between them. Count to nine.
8. Play one long note in the highest register. Count to six.
9. Play one long note in a middle register. Count to ten.
10. Play one long note in a middle register. Count to eight.
11. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.

44.

1. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
2. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
3. Play two long unequal notes in the highest register with a small interval between them. Count to five.
4. Play one long note in the highest register. Count to six.
5. Play one long note in a middle register. Count to nine.
6. Play one long note in a somewhat high register. Count to eight.
7. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
8. Play one long note in a slightly low register. Count to six.
9. Play two long unequal notes in a slightly high register with a large interval between them. Count to ten.
10. Play one short note in a somewhat low register. Count to nine.

45.

1. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
2. Play one long note in the lowest register. Count to six.
3. Play two long unequal notes in a somewhat high register with a small interval between them. Count to five.
4. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
5. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
6. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
7. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
8. Play one long note in the lowest register. Count to six.
9. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to five.
10. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
11. Play one short note in a somewhat high register. Count to five.
12. Play one short note in a somewhat low register. Count to eight.
13. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
14. Play one long note in a middle register. Count to six.

46.

1. Play one long note in a middle register. Count to eight.
2. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to eight.
3. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to nine.
4. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
6. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to eight.
7. Play one long and one short note in the highest register with a small interval between them. Count to ten.
8. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
9. Play one short note in the highest register. Count to eight.
10. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
11. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to ten.
12. Play one long note in a slightly low register. Count to eight.
13. Play one short note in a slightly low register. Count to seven.
14. Play one long note in the lowest register. Count to ten.

47.

1. Play one long and one short note in the highest register with a small interval between them. Count to seven.
2. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
4. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
5. Play one long note in a slightly low register. Count to seven.
6. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to five.
7. Play one long note in a slightly low register. Count to eight.
8. Play one long and one short note in a somewhat high register with a large interval between them. Count to nine.
9. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
10. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
11. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.
12. Play one short note in the highest register. Count to six.
13. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to eight.

48.

1. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to five.
2. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to six.
3. Play one long and one short note in the highest register with a large interval between them. Count to ten.
4. Play one long and one short note in a slightly high register with a small interval between them. Count to ten.
5. Play two long unequal notes in the lowest register with a large interval between them. Count to ten.
6. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
7. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to nine.
8. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
9. Play one long and one short note in a slightly low register with a small interval between them. Count to nine.
10. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.

49.

1. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
2. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
3. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
4. Play one long and one short note in a somewhat low register with a large interval between them. Count to nine.
5. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
6. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
7. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
8. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
9. Play one short note in a somewhat low register. Count to six.
10. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
11. Play two long unequal notes in the lowest register with a large interval between them. Count to eight.
12. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
13. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to seven.

50.

1. Play one short note in a middle register. Count to five.
2. Play one long note in the highest register. Count to eight.
3. Play one long note in the highest register. Count to six.
4. Play two long unequal notes in the lowest register with a large interval between them. Count to five.
5. Play one long note in a slightly high register. Count to seven.
6. Play one long note in a slightly high register. Count to eight.
7. Play one short note in a slightly low register. Count to five.
8. Play one short note in a somewhat high register. Count to seven.
9. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
10. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to ten.
11. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.

51.

1. Play one long note in a somewhat low register. Count to five.
2. Play one long note in a somewhat high register. Count to eight.
3. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to six.
4. Play one short note in a somewhat low register. Count to nine.
5. Play two long unequal notes in a slightly low register with a small interval between them. Count to ten.
6. Play two long unequal notes in a slightly high register with a large interval between them. Count to five.
7. Play one long note in a somewhat high register. Count to five.
8. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
9. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to eight.
10. Play two long unequal notes in a slightly high register with a large interval between them. Count to ten.
11. Play one long note in the highest register. Count to seven.
12. Play one short note in a middle register. Count to five.

52.

1. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.
2. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
3. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
4. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
5. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
6. Play one short note in a somewhat high register. Count to ten.
7. Play one long note in a slightly high register. Count to ten.
8. Play one short note in the highest register. Count to eight.
9. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
10. Play one short note in the lowest register. Count to seven.
11. Play one long and one short note in a somewhat low register with a large interval between them. Count to nine.

53.

1. Play one long and one short note in a somewhat low register with a large interval between them. Count to five.
2. Play one long and one short note in a middle register with a small interval between them. Count to six.
3. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to nine.
4. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to seven.
5. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
6. Play one long note in a slightly high register. Count to eight.
7. Play one long note in a somewhat high register. Count to ten.
8. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to eight.
9. Play one short note in the lowest register. Count to nine.
10. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
11. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.
12. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
13. Play one long and one short note in the highest register with a small interval between them. Count to ten.

54.

1. Play one long and one short note in the lowest register with a small interval between them. Count to nine.
2. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
3. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
4. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to six.
5. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
6. Play one long and one short note in the highest register with a large interval between them. Count to seven.
7. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to ten.
8. Play one long and one short note in the highest register with a large interval between them. Count to five.
9. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.

55.

1. Play one long and one short note in a slightly high register with a small interval between them. Count to five.
2. Play one long note in a slightly high register. Count to seven.
3. Play two long unequal notes in the highest register with a large interval between them. Count to seven.
4. Play one short note in the lowest register. Count to seven.
5. Play one long note in the highest register. Count to six.
6. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
7. Play one long and one short note in a middle register with a large interval between them. Count to eight.
8. Play two long unequal notes in a slightly high register with a large interval between them. Count to eight.
9. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to nine.

56.

1. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes in the highest register with a large interval between them. Count to nine.
3. Play one long note in a somewhat high register. Count to eight.
4. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
5. Play one long note in a somewhat low register. Count to eight.
6. Play one short note in a somewhat high register. Count to eight.
7. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
8. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to six.
9. Play two long unequal notes in a slightly low register with a large interval between them. Count to ten.
10. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
11. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
12. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
13. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.

57.

1. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
2. Play two long unequal notes in a somewhat high register with a large interval between them. Count to ten.
3. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
4. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
5. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
6. Play one long and one short note in the lowest register with a small interval between them. Count to nine.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
8. Play one long and one short note in a middle register with a large interval between them. Count to nine.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to seven.
10. Play two long unequal notes in the highest register with a small interval between them. Count to six.
11. Play two long unequal notes in a somewhat high register with a large interval between them. Count to five.
12. Play two long unequal notes in a somewhat high register with a large interval between them. Count to eight.
13. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to eight.
14. Play one long and one short note in a slightly low register with a large interval between them. Count to five.

58.

1. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
2. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
3. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to five.
4. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
6. Play one long note in a slightly high register. Count to ten.
7. Play one long note in a middle register. Count to six.
8. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
9. Play two long unequal notes in a slightly low register with a large interval between them. Count to eight.
10. Play one long and one short note in a slightly high register with a small interval between them. Count to five.
11. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
12. Play one long and one short note in a somewhat low register with a large interval between them. Count to ten.
13. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
14. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.

59.

1. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to ten.
2. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
3. Play one long note in the highest register. Count to nine.
4. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to seven.
5. Play one short note in a slightly high register. Count to nine.
6. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
7. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.
8. Play two long unequal notes in a somewhat low register with a large interval between them. Count to nine.
9. Play one long and one short note in the highest register with a large interval between them. Count to five.
10. Play two long unequal notes in a somewhat high register with a large interval between them. Count to nine.
11. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
12. Play two long unequal notes in the highest register with a small interval between them. Count to eight.
13. Play one long and one short note in a somewhat high register with a large interval between them. Count to six.
14. Play two long unequal notes in a middle register with a small interval between them. Count to five.

60.

1. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to eight.
2. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
3. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to five.
4. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in a slightly high register with a small interval between them. Count to seven.
6. Play one long and one short note in a slightly high register with a small interval between them. Count to six.
7. Play one short note in the highest register. Count to five.
8. Play two long unequal notes in the lowest register with a small interval between them. Count to seven.
9. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
10. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to seven.
11. Play one long note in a slightly low register. Count to six.
12. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to five.

61.

1. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.
2. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
3. Play one long note in a somewhat low register. Count to ten.
4. Play one long note in the lowest register. Count to six.
5. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
6. Play one long and one short note in a middle register with a large interval between them. Count to nine.
7. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
8. Play one long note in a middle register. Count to nine.

62.

1. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
2. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
3. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.
4. Play one long note in a middle register. Count to seven.
5. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to ten.
6. Play one long note in a somewhat low register. Count to eight.
7. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
8. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to ten.
9. Play one long note in a slightly high register. Count to six.
10. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
11. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.

63.

1. Play one long note in a somewhat high register. Count to eight.
2. Play one short note in a slightly high register. Count to six.
3. Play two long unequal notes in a somewhat high register with a large interval between them. Count to six.
4. Play one short note in a somewhat low register. Count to seven.
5. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
6. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
7. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to five.
8. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to six.

64.

1. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
2. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
3. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
4. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to eight.
5. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to ten.
6. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.
7. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.
8. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to eight.
10. Play two long unequal notes in the lowest register with a small interval between them. Count to six.
11. Play two long unequal notes in the highest register with a small interval between them. Count to five.

65.

1. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.
2. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
3. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to seven.
4. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
5. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
6. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.
7. Play one long note in a somewhat low register. Count to nine.
8. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
9. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
10. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
11. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to five.

66.

1. Play one long note in the lowest register. Count to eight.
2. Play one long note in a somewhat low register. Count to ten.
3. Play one long note in a somewhat low register. Count to six.
4. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play one long note in a middle register. Count to nine.
6. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
7. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to five.
8. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.

67.

1. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes in a middle register with a large interval between them. Count to nine.
3. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.
4. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to eight.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to eight.
6. Play one long and one short note in a middle register with a large interval between them. Count to six.
7. Play one short note in a somewhat high register. Count to six.
8. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.

68.

1. Play one short note in a middle register. Count to ten.
2. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to five.
3. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes in a slightly high register with a small interval between them. Count to ten.
5. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
6. Play two long unequal notes in a somewhat low register with a small interval between them. Count to seven.
7. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
8. Play two long unequal notes in the highest register with a large interval between them. Count to six.
9. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
10. Play one long note in the highest register. Count to eight.

69.

1. Play one short note in a somewhat low register. Count to eight.
2. Play one long note in a middle register. Count to eight.
3. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
4. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
5. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
6. Play one long note in the highest register. Count to five.
7. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
8. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to ten.
9. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.

70.

1. Play one long and one short note in a slightly high register with a large interval between them. Count to five.
2. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
3. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes in the lowest register with a large interval between them. Count to six.
5. Play two long unequal notes in the lowest register with a small interval between them. Count to six.
6. Play one short note in a slightly high register. Count to ten.
7. Play one long note in the highest register. Count to five.
8. Play one short note in a slightly high register. Count to ten.
9. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.

71.

1. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
2. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to six.
3. Play one long note in a slightly high register. Count to ten.
4. Play one long note in a somewhat high register. Count to seven.
5. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
6. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
7. Play one long and one short note in a slightly low register with a small interval between them. Count to five.
8. Play one long note in a somewhat high register. Count to five.
9. Play one long note in the highest register. Count to eight.
10. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to six.
11. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to nine.

72.

1. Play one long note in a slightly high register. Count to ten.
2. Play one long and one short note in a somewhat high register with a large interval between them. Count to nine.
3. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes in the lowest register with a large interval between them. Count to nine.
5. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
6. Play one long note in the lowest register. Count to six.
7. Play two long unequal notes in a slightly low register with a large interval between them. Count to six.
8. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
9. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
10. Play one short note in a middle register. Count to seven.
11. Play one long note in a slightly low register. Count to five.

73.

1. Play one short note in a slightly high register. Count to seven.
2. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to five.
3. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
4. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to ten.
5. Play one long note in a middle register. Count to five.
6. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to five.
7. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to seven.
8. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
9. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.

74.

1. Play one long note in a slightly low register. Count to seven.
2. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to five.
3. Play two long unequal notes in a middle register with a small interval between them. Count to seven.
4. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
5. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
6. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
7. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
8. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
9. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
10. Play one long note in a middle register. Count to seven.
11. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
12. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
13. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
14. Play one long note in a somewhat high register. Count to ten.

75.

1. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
2. Play one long note in a somewhat low register. Count to six.
3. Play one long note in the highest register. Count to eight.
4. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes in the highest register with a small interval between them. Count to five.
6. Play one long and one short note in the highest register with a large interval between them. Count to ten.
7. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to six.
8. Play one short note in a slightly low register. Count to ten.
9. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
10. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to nine.
11. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.

76.

1. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to five.
3. Play one short note in the lowest register. Count to six.
4. Play one long note in the lowest register. Count to five.
5. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.
6. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
7. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.
8. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
9. Play one long and one short note in a somewhat high register with a small interval between them. Count to ten.
10. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
11. Play one short note in a slightly low register. Count to five.
12. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
13. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.
14. Play one long note in the highest register. Count to ten.

77.

1. Play one long note in a somewhat high register. Count to five.
2. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
3. Play one long note in a slightly low register. Count to six.
4. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
5. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to six.
6. Play one long and one short note in a slightly low register with a small interval between them. Count to nine.
7. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
8. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.

78.

1. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
2. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
3. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.
4. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to seven.
5. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to five.
6. Play one long and one short note in the highest register with a small interval between them. Count to five.
7. Play one long and one short note in a somewhat high register with a small interval between them. Count to nine.
8. Play one long note in a middle register. Count to eight.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to nine.
10. Play one long and one short note in a middle register with a small interval between them. Count to nine.
11. Play one long note in a slightly high register. Count to ten.

79.

1. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
2. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to eight.
3. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
4. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
5. Play one long note in a slightly low register. Count to nine.
6. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
7. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
8. Play one short note in the highest register. Count to seven.
9. Play two long unequal notes in a slightly high register with a small interval between them. Count to six.
10. Play two long unequal notes in a slightly low register with a large interval between them. Count to nine.
11. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to eight.

80.

1. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.
2. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
3. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
4. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to seven.
5. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
6. Play one long and one short note in a slightly low register with a large interval between them. Count to seven.
7. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
8. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to five.
10. Play one short note in a middle register. Count to ten.
11. Play one long note in a somewhat high register. Count to six.
12. Play one long note in a slightly high register. Count to eight.
13. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
14. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to five.

81.

1. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
2. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
3. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
4. Play one long and one short note in a somewhat low register with a small interval between them. Count to seven.
5. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
6. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes in a slightly high register with a small interval between them. Count to ten.
8. Play one long and one short note in a somewhat high register with a small interval between them. Count to nine.
9. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
10. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to seven.
11. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to ten.
12. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
13. Play two long unequal notes in a somewhat low register with a large interval between them. Count to five.

82.

1. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
2. Play two long unequal notes in a somewhat low register with a large interval between them. Count to six.
3. Play one short note in a somewhat low register. Count to nine.
4. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
5. Play one short note in the lowest register. Count to seven.
6. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to six.
7. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
8. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.
9. Play one long note in the highest register. Count to ten.
10. Play one long and one short note in a middle register with a small interval between them. Count to eight.
11. Play two long unequal notes in a middle register with a large interval between them. Count to five.
12. Play one short note in a slightly low register. Count to seven.

83.

1. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
2. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
3. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
4. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to ten.
5. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
6. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
7. Play one long and one short note in a middle register with a small interval between them. Count to five.
8. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
9. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
10. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
11. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
12. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
13. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
14. Play one long note in a somewhat high register. Count to nine.

84.

1. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to seven.
2. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to seven.
4. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
5. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
6. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
7. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
8. Play one long note in a middle register. Count to seven.
9. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
10. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
11. Play one long and one short note in a slightly high register with a small interval between them. Count to five.
12. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
13. Play one long note in a somewhat low register. Count to ten.
14. Play one long and one short note in a somewhat high register with a large interval between them. Count to five.

85.

1. Play one long and one short note in a slightly low register with a small interval between them. Count to eight.
2. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
3. Play one long and one short note in the highest register with a large interval between them. Count to eight.
4. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
5. Play one long note in a somewhat high register. Count to eight.
6. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
7. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
8. Play one long and one short note in a somewhat high register with a large interval between them. Count to seven.
9. Play two long unequal notes in the highest register with a large interval between them. Count to nine.
10. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to five.

86.

1. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to five.
2. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
3. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
4. Play two long unequal notes in a somewhat high register with a large interval between them. Count to seven.
5. Play one long and one short note in a slightly low register with a small interval between them. Count to five.
6. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
7. Play one long note in a somewhat high register. Count to eight.
8. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
9. Play one long note in a middle register. Count to nine.
10. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
11. Play one short note in the highest register. Count to ten.
12. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
13. Play one long and one short note in a slightly high register with a large interval between them. Count to eight.
14. Play one long and one short note in a somewhat low register with a small interval between them. Count to nine.

87.

1. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to six.
2. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
3. Play one long note in a somewhat low register. Count to six.
4. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play one long and one short note in a somewhat high register with a large interval between them. Count to seven.
6. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to eight.
7. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
8. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
9. Play one long note in the lowest register. Count to eight.
10. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
11. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
12. Play one long and one short note in a somewhat high register with a large interval between them. Count to five.

88.

1. Play one short note in a middle register. Count to five.
2. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
3. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes in a slightly low register with a large interval between them. Count to nine.
5. Play one long and one short note in the highest register with a large interval between them. Count to ten.
6. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
7. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to ten.
8. Play one long note in a slightly low register. Count to ten.
9. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to six.
10. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to five.
11. Play one long note in a slightly high register. Count to ten.
12. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to ten.

89.

1. Play one long note in a somewhat low register. Count to nine.
2. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
3. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
4. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
5. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to nine.
6. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
7. Play one long note in the lowest register. Count to nine.
8. Play one long note in a somewhat high register. Count to five.
9. Play one short note in a slightly low register. Count to eight.
10. Play one long note in a somewhat high register. Count to nine.

90.

1. Play one long and one short note in a somewhat high register with a small interval between them. Count to ten.
2. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
3. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
4. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to nine.
5. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to ten.
6. Play one long note in a middle register. Count to seven.
7. Play one long and one short note in a slightly low register with a large interval between them. Count to eight.
8. Play one long note in the lowest register. Count to six.
9. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to six.

91.

1. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
2. Play one long and one short note in a middle register with a small interval between them. Count to ten.
3. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
4. Play one long note in a slightly low register. Count to five.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to six.
6. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.
7. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
8. Play one long and one short note in a slightly low register with a large interval between them. Count to ten.
9. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
10. Play one long note in the highest register. Count to ten.
11. Play one long note in the lowest register. Count to seven.

92.

1. Play two long unequal notes in a slightly high register with a large interval between them. Count to nine.
2. Play one short note in a somewhat low register. Count to nine.
3. Play one long note in the highest register. Count to eight.
4. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
5. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
6. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
7. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
8. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
9. Play one long and one short note in the lowest register with a large interval between them. Count to six.
10. Play one long note in the lowest register. Count to ten.
11. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to eight.
12. Play two long unequal notes in a slightly high register with a small interval between them. Count to seven.

93.

1. Play two long unequal notes in a slightly high register with a large interval between them. Count to five.
2. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
3. Play one long note in a slightly high register. Count to six.
4. Play one long note in a somewhat high register. Count to ten.
5. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
6. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to eight.
7. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
8. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
9. Play one long note in a middle register. Count to ten.
10. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.
11. Play one long note in a slightly low register. Count to seven.
12. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
13. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to ten.
14. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.

94.

1. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
2. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
3. Play one short note in a slightly low register. Count to ten.
4. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to six.
5. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.
6. Play two long unequal notes in the highest register with a large interval between them. Count to seven.
7. Play one long and one short note in a middle register with a small interval between them. Count to five.
8. Play one long note in a slightly low register. Count to seven.
9. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
10. Play one long note in the lowest register. Count to ten.

95.

1. Play one long and one short note in a somewhat high register with a large interval between them. Count to eight.
2. Play two long unequal notes in the lowest register with a large interval between them. Count to nine.
3. Play one short note in a middle register. Count to eight.
4. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to six.
5. Play two long unequal notes in a somewhat high register with a large interval between them. Count to seven.
6. Play one long and one short note in the lowest register with a small interval between them. Count to six.
7. Play one long and one short note in a middle register with a small interval between them. Count to five.
8. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
9. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to six.
10. Play one long note in the lowest register. Count to eight.

96.

1. Play two long unequal notes in the lowest register with a small interval between them. Count to six.
2. Play one long note in the lowest register. Count to nine.
3. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
4. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
5. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
6. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
7. Play two long unequal notes in the lowest register with a small interval between them. Count to five.
8. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
9. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.

97.

1. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to nine.
3. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to five.
4. Play one short note in a slightly low register. Count to eight.
5. Play two long unequal notes in a slightly low register with a large interval between them. Count to eight.
6. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
7. Play one short note in a slightly high register. Count to nine.
8. Play one short note in the lowest register. Count to six.
9. Play one short note in the highest register. Count to seven.
10. Play one long note in the lowest register. Count to six.
11. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.

98.

1. Play one short note in a somewhat high register. Count to eight.
2. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
3. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.
4. Play two long unequal notes in the highest register with a large interval between them. Count to nine.
5. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to five.
6. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.
7. Play one long note in a somewhat high register. Count to nine.
8. Play one long note in the lowest register. Count to five.
9. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
10. Play one long note in a slightly high register. Count to ten.
11. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.

99.

1. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to five.
2. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
3. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to eight.
4. Play one long and one short note in a somewhat high register with a large interval between them. Count to six.
5. Play one short note in a slightly high register. Count to ten.
6. Play one long note in a somewhat low register. Count to seven.
7. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to nine.
8. Play one long and one short note in a slightly high register with a small interval between them. Count to nine.
9. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.

100.

1. Play one long note in the highest register. Count to six.
2. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
3. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
4. Play one short note in a somewhat high register. Count to seven.
5. Play one short note in a somewhat low register. Count to eight.
6. Play one long note in a somewhat high register. Count to five.
7. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
8. Play one short note in a middle register. Count to seven.
9. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to six.

101.

1. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
2. Play two long unequal notes in a middle register with a large interval between them. Count to nine.
3. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
4. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
5. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
6. Play one long note in a slightly high register. Count to five.
7. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
8. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
9. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
10. Play two long unequal notes in a middle register with a large interval between them. Count to seven.
11. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to six.
12. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
13. Play two long unequal notes in the lowest register with a small interval between them. Count to ten.
14. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.

102.

1. Play one long and one short note in a somewhat low register with a large interval between them. Count to six.
2. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
3. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
4. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
5. Play one long note in a somewhat high register. Count to six.
6. Play one long note in the highest register. Count to seven.
7. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
8. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
9. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to seven.
10. Play one long and one short note in a somewhat low register with a large interval between them. Count to five.

103.

1. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
2. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to nine.
3. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
4. Play one short note in a middle register. Count to five.
5. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to seven.
6. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
7. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
8. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
9. Play one long note in the highest register. Count to ten.
10. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
11. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.

104.

1. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
2. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play one short note in a slightly high register. Count to seven.
4. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
5. Play two long unequal notes in a somewhat low register with a small interval between them. Count to six.
6. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
7. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to five.
8. Play two long unequal notes in a slightly high register with a large interval between them. Count to seven.
9. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.

105.

1. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
2. Play one short note in a somewhat low register. Count to ten.
3. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
4. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to eight.
5. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
6. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
8. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
9. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
10. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.
11. Play one short note in a slightly high register. Count to nine.
12. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to ten.
13. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to five.

106.

1. Play one long note in the lowest register. Count to six.
2. Play one long and one short note in the lowest register with a small interval between them. Count to five.
3. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
4. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to six.
5. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
6. Play one long note in the highest register. Count to six.
7. Play one long note in the highest register. Count to eight.
8. Play one short note in a middle register. Count to seven.
9. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to nine.
10. Play one long note in a slightly high register. Count to six.
11. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to nine.
12. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.

107.

1. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to five.
2. Play one long and one short note in the highest register with a small interval between them. Count to five.
3. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
4. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to six.
5. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
6. Play one short note in a slightly high register. Count to ten.
7. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
8. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
9. Play one long note in a slightly low register. Count to ten.
10. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
11. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to ten.
12. Play one short note in the highest register. Count to six.

108.

1. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to six.
2. Play two long unequal notes in a somewhat high register with a small interval between them. Count to five.
3. Play one short note in the highest register. Count to seven.
4. Play two long unequal notes in a middle register with a small interval between them. Count to six.
5. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
6. Play one long note in a somewhat low register. Count to six.
7. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
9. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
10. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
11. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to ten.

109.

1. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to six.
2. Play one long note in the lowest register. Count to ten.
3. Play two long unequal notes in a slightly high register with a large interval between them. Count to five.
4. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in a slightly low register with a large interval between them. Count to ten.
6. Play one long note in the highest register. Count to five.
7. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to ten.
8. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
9. Play one long note in a slightly high register. Count to five.
10. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to ten.
11. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
12. Play one short note in the lowest register. Count to eight.

110.

1. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
2. Play one long note in a somewhat low register. Count to nine.
3. Play one long note in a somewhat low register. Count to nine.
4. Play one long and one short note in a slightly low register with a small interval between them. Count to six.
5. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to seven.
6. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to eight.
7. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
8. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
9. Play two long unequal notes in a slightly low register with a small interval between them. Count to seven.
10. Play one long note in a middle register. Count to ten.
11. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to nine.
12. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.

111.

1. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
2. Play one long note in a slightly low register. Count to seven.
3. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
4. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
5. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
6. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
7. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
8. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
9. Play one short note in a somewhat high register. Count to ten.
10. Play one short note in a slightly low register. Count to nine.

112.

1. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to ten.
2. Play one long note in the lowest register. Count to eight.
3. Play two long unequal notes in a somewhat low register with a small interval between them. Count to five.
4. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
5. Play one long and one short note in a somewhat high register with a large interval between them. Count to seven.
6. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
7. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
8. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to five.
9. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to six.
10. Play one long and one short note in a somewhat low register with a large interval between them. Count to six.
11. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
12. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to nine.
13. Play one long note in a slightly low register. Count to five.
14. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to seven.

113.

1. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
2. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to nine.
3. Play one long note in a middle register. Count to seven.
4. Play two long unequal notes in a slightly high register with a small interval between them. Count to eight.
5. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to seven.
6. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
7. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
8. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
9. Play two long unequal notes in a somewhat low register with a small interval between them. Count to eight.
10. Play one short note in a slightly low register. Count to six.

114.

1. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to five.
2. Play one long note in the lowest register. Count to seven.
3. Play one short note in a slightly high register. Count to eight.
4. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
5. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
6. Play two long unequal notes in the lowest register with a large interval between them. Count to six.
7. Play one long note in the lowest register. Count to ten.
8. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
9. Play one long note in a slightly high register. Count to six.
10. Play one long and one short note in a somewhat low register with a small interval between them. Count to five.

115.

1. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes in the lowest register with a large interval between them. Count to eight.
3. Play one long note in a slightly low register. Count to nine.
4. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.
5. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
6. Play one short note in a slightly high register. Count to seven.
7. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to eight.
8. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to seven.
9. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
10. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to eight.

116.

1. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
2. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
3. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
4. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
5. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
6. Play two long unequal notes in a middle register with a small interval between them. Count to eight.
7. Play one long note in the highest register. Count to seven.
8. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to five.

117.

1. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
2. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
3. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to nine.
4. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.
6. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to seven.
7. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
8. Play one long note in a somewhat low register. Count to five.

118.

1. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
2. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
3. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to eight.
4. Play one long note in a slightly high register. Count to ten.
5. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
6. Play one short note in a somewhat low register. Count to six.
7. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to eight.
8. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.

119.

1. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
2. Play one short note in a somewhat low register. Count to seven.
3. Play one long note in the highest register. Count to nine.
4. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to five.
5. Play one long note in a somewhat high register. Count to ten.
6. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
8. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
9. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to five.
10. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to nine.
11. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
12. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.

120.

1. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to ten.
3. Play one short note in a somewhat low register. Count to nine.
4. Play two long unequal notes in the lowest register with a small interval between them. Count to eight.
5. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to eight.
6. Play two long unequal notes in the highest register with a large interval between them. Count to ten.
7. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
8. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to six.
9. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
10. Play one long and one short note in a slightly high register with a large interval between them. Count to seven.
11. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
12. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.

121.

1. Play one long note in a somewhat low register. Count to eight.
2. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
3. Play one short note in a slightly low register. Count to six.
4. Play two long unequal notes in a somewhat low register with a large interval between them. Count to seven.
5. Play one long note in a middle register. Count to eight.
6. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
7. Play one long note in a slightly high register. Count to seven.
8. Play two long unequal notes in a somewhat low register with a small interval between them. Count to nine.
9. Play one long note in a slightly low register. Count to seven.
10. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.

122.

1. Play one long and one short note in a slightly low register with a large interval between them. Count to six.
2. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
3. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to eight.
4. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
5. Play one short note in a slightly low register. Count to ten.
6. Play one short note in a somewhat low register. Count to five.
7. Play two long unequal notes in a slightly high register with a small interval between them. Count to ten.
8. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
9. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
10. Play one short note in a middle register. Count to seven.
11. Play two long unequal notes in a middle register with a small interval between them. Count to five.
12. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
13. Play one long and one short note in a slightly high register with a small interval between them. Count to ten.

123.

1. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to five.
2. Play one long and one short note in a somewhat high register with a small interval between them. Count to nine.
3. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to nine.
4. Play one long and one short note in the lowest register with a large interval between them. Count to eight.
5. Play one short note in a slightly low register. Count to nine.
6. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
7. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
8. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.

124.

1. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
2. Play one long note in the highest register. Count to ten.
3. Play one long note in a slightly high register. Count to seven.
4. Play one long and one short note in a somewhat low register with a small interval between them. Count to six.
5. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to eight.
6. Play one long note in a slightly low register. Count to six.
7. Play one long and one short note in a slightly high register with a small interval between them. Count to nine.
8. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to six.
9. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.
10. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to ten.

125.

1. Play one short note in a slightly low register. Count to ten.
2. Play two long unequal notes in a somewhat high register with a small interval between them. Count to ten.
3. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to ten.
4. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
5. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to ten.
6. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
7. Play two long unequal notes in a middle register with a large interval between them. Count to nine.
8. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
9. Play one long note in a slightly high register. Count to five.
10. Play one long and one short note in a somewhat low register with a small interval between them. Count to nine.
11. Play one short note in a somewhat low register. Count to nine.
12. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.

126.

1. Play one long note in a slightly low register. Count to eight.
2. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to seven.
3. Play one long and one short note in the highest register with a small interval between them. Count to five.
4. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
5. Play two long unequal notes in a slightly high register with a large interval between them. Count to six.
6. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
7. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to nine.
8. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
9. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
10. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.

127.

1. Play one long and one short note in a somewhat high register with a large interval between them. Count to nine.
2. Play one long note in a slightly low register. Count to eight.
3. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
4. Play one long note in the highest register. Count to six.
5. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
6. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to seven.
7. Play one long note in a slightly low register. Count to eight.
8. Play one long and one short note in the highest register with a large interval between them. Count to seven.
9. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.

128.

1. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
2. Play one long note in a somewhat low register. Count to five.
3. Play one long note in a middle register. Count to eight.
4. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to eight.
5. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to ten.
6. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
7. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
9. Play two long unequal notes in a slightly low register with a small interval between them. Count to six.
10. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to ten.
11. Play two long unequal notes in a somewhat low register with a small interval between them. Count to nine.

129.

1. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to seven.
2. Play one long and one short note in the highest register with a large interval between them. Count to six.
3. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
4. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
5. Play one short note in the highest register. Count to seven.
6. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
7. Play one short note in the lowest register. Count to nine.
8. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
9. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
10. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
11. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to six.
12. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.

130.

1. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
2. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
3. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
4. Play one short note in a somewhat low register. Count to five.
5. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
6. Play one long and one short note in a somewhat low register with a large interval between them. Count to ten.
7. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
8. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes in a somewhat low register with a small interval between them. Count to ten.

131.

1. Play one long note in a somewhat high register. Count to ten.
2. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to seven.
3. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
4. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes in the highest register with a small interval between them. Count to five.
6. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to nine.
8. Play one long and one short note in a somewhat high register with a large interval between them. Count to seven.
9. Play one long note in the highest register. Count to five.
10. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
11. Play one long and one short note in the highest register with a small interval between them. Count to ten.
12. Play one short note in the lowest register. Count to seven.
13. Play two long unequal notes in a slightly high register with a small interval between them. Count to eight.

132.

1. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.
2. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
3. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
4. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
5. Play one long note in a slightly high register. Count to seven.
6. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to seven.
7. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
8. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to six.
9. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to nine.
10. Play one long and one short note in a slightly high register with a small interval between them. Count to seven.
11. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.

133.

1. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
2. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to five.
3. Play one long and one short note in a slightly high register with a small interval between them. Count to eight.
4. Play two long unequal notes in a somewhat low register with a small interval between them. Count to five.
5. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
6. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
7. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to ten.
8. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to ten.
9. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
10. Play one short note in the lowest register. Count to eight.

134.

1. Play one short note in the lowest register. Count to five.
2. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
3. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
4. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
6. Play one long note in a slightly low register. Count to eight.
7. Play one long note in the highest register. Count to nine.
8. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.

135.

1. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
2. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
3. Play two long unequal notes in a middle register with a large interval between them. Count to nine.
4. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
5. Play one short note in a middle register. Count to eight.
6. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.
7. Play one long and one short note in a slightly high register with a large interval between them. Count to nine.
8. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
9. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
10. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
11. Play two long unequal notes in a middle register with a large interval between them. Count to nine.

136.

1. Play one long and one short note in the lowest register with a large interval between them. Count to eight.
2. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
3. Play one long note in the highest register. Count to seven.
4. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
5. Play one long note in the lowest register. Count to six.
6. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
7. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
8. Play one long note in a somewhat low register. Count to seven.
9. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to nine.

137.

1. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
2. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes in a somewhat high register with a small interval between them. Count to seven.
4. Play one short note in a slightly high register. Count to seven.
5. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
6. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
7. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
8. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
9. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to five.
10. Play two long unequal notes in a slightly high register with a small interval between them. Count to eight.

138.

1. Play two long unequal notes in a slightly high register with a large interval between them. Count to ten.
2. Play one long and one short note in a slightly high register with a small interval between them. Count to ten.
3. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to ten.
4. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
5. Play one long note in a slightly high register. Count to five.
6. Play one long and one short note in a slightly low register with a small interval between them. Count to eight.
7. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
8. Play two long unequal notes in a middle register with a small interval between them. Count to seven.
9. Play one long note in a somewhat high register. Count to seven.
10. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
11. Play one long and one short note in a slightly low register with a small interval between them. Count to nine.
12. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
13. Play one short note in a somewhat low register. Count to eight.
14. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to eight.

139.

1. Play two long unequal notes in a slightly low register with a small interval between them. Count to eight.
2. Play one short note in the lowest register. Count to eight.
3. Play one long note in a slightly low register. Count to eight.
4. Play one long note in a middle register. Count to six.
5. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
6. Play two long unequal notes in a somewhat low register with a large interval between them. Count to six.
7. Play one long note in the lowest register. Count to five.
8. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
9. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.
10. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
11. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to five.
12. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
13. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to six.

140.

1. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
2. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.
3. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
4. Play one short note in the highest register. Count to five.
5. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to six.
6. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to five.
8. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.

141.

1. Play one long and one short note in the highest register with a small interval between them. Count to five.
2. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
3. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
4. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
5. Play one long note in the lowest register. Count to eight.
6. Play one long note in the lowest register. Count to five.
7. Play one long and one short note in a middle register with a large interval between them. Count to five.
8. Play two long unequal notes in the lowest register with a large interval between them. Count to ten.
9. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.

142.

1. Play one long note in the highest register. Count to six.
2. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to five.
3. Play one long note in a slightly low register. Count to ten.
4. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
5. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
6. Play two long unequal notes in a somewhat high register with a small interval between them. Count to nine.
7. Play two long unequal notes in a somewhat high register with a small interval between them. Count to nine.
8. Play one short note in the lowest register. Count to eight.
9. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
10. Play two long unequal notes in the highest register with a large interval between them. Count to nine.
11. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.

143.

1. Play two long unequal notes in the highest register with a small interval between them. Count to five.
2. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
3. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to six.
5. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.
6. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
7. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
9. Play one long note in the lowest register. Count to seven.
10. Play one long note in a middle register. Count to five.
11. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
12. Play two long unequal notes in a middle register with a large interval between them. Count to nine.
13. Play one long note in the lowest register. Count to five.
14. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.

144.

1. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to six.
3. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
4. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to eight.
5. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
6. Play one long note in a slightly low register. Count to nine.
7. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
8. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to nine.
9. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
10. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to five.

145.

1. Play one long note in a slightly low register. Count to six.
2. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to ten.
3. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
4. Play one long note in the lowest register. Count to seven.
5. Play two long unequal notes in a middle register with a small interval between them. Count to nine.
6. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
7. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
8. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
9. Play one long note in a slightly low register. Count to five.
10. Play two long unequal notes in the lowest register with a small interval between them. Count to six.
11. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to six.
12. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
13. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.

146.

1. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
2. Play one long note in a slightly low register. Count to seven.
3. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
4. Play one long note in the lowest register. Count to seven.
5. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to six.
6. Play one long note in a middle register. Count to nine.
7. Play one long note in a somewhat low register. Count to six.
8. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.
9. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
10. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
11. Play one long note in a somewhat low register. Count to six.
12. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.

147.

1. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
2. Play two long unequal notes in a somewhat high register with a small interval between them. Count to six.
3. Play one short note in a somewhat high register. Count to ten.
4. Play one long note in a slightly low register. Count to seven.
5. Play one short note in a slightly high register. Count to ten.
6. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
7. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to seven.
8. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
9. Play one long note in a somewhat low register. Count to eight.

148.

1. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to six.
2. Play one long note in the lowest register. Count to five.
3. Play one long note in a somewhat high register. Count to seven.
4. Play one short note in a slightly low register. Count to eight.
5. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
6. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
7. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
8. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to ten.
9. Play one long note in the highest register. Count to six.
10. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.
11. Play one long and one short note in a somewhat high register with a small interval between them. Count to six.
12. Play one short note in the highest register. Count to five.
13. Play one long and one short note in a middle register with a small interval between them. Count to eight.
14. Play one long and one short note in a slightly low register with a small interval between them. Count to seven.

149.

1. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
2. Play two long unequal notes in the highest register with a small interval between them. Count to ten.
3. Play one long note in the highest register. Count to eight.
4. Play one long note in a slightly high register. Count to seven.
5. Play one long and one short note in a somewhat high register with a large interval between them. Count to seven.
6. Play two long unequal notes in the lowest register with a large interval between them. Count to nine.
7. Play two long unequal notes in a somewhat low register with a small interval between them. Count to six.
8. Play one long and one short note in a somewhat low register with a small interval between them. Count to five.
9. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
10. Play one short note in a slightly low register. Count to ten.
11. Play one short note in a somewhat low register. Count to seven.

150.

1. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to six.
2. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
3. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
4. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
5. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
6. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
7. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
8. Play one long note in a middle register. Count to ten.

151.

1. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
2. Play one long note in the lowest register. Count to nine.
3. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
4. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to six.
5. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
6. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
7. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
8. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
9. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
10. Play one long and one short note in a middle register with a small interval between them. Count to eight.
11. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
12. Play one short note in a somewhat low register. Count to ten.

152.

1. Play one long note in a middle register. Count to five.
2. Play one long note in a somewhat high register. Count to nine.
3. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
4. Play one long note in a somewhat low register. Count to nine.
5. Play one long and one short note in a somewhat high register with a large interval between them. Count to eight.
6. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
7. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to eight.
8. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
9. Play two long unequal notes in the lowest register with a large interval between them. Count to six.
10. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to six.
11. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to ten.

153.

1. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to six.
2. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
3. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to ten.
4. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
5. Play two long unequal notes in a somewhat high register with a small interval between them. Count to five.
6. Play one long note in a slightly high register. Count to ten.
7. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
8. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.

154.

1. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to ten.
2. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
3. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to seven.
4. Play one long note in the highest register. Count to nine.
5. Play one long note in a slightly high register. Count to ten.
6. Play one long note in a middle register. Count to six.
7. Play one long and one short note in a slightly high register with a small interval between them. Count to seven.
8. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.
9. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to seven.
10. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
11. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to ten.

155.

1. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to ten.
2. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to six.
3. Play one long and one short note in a middle register with a small interval between them. Count to five.
4. Play one short note in the lowest register. Count to nine.
5. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to five.
6. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
7. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
8. Play one long note in a middle register. Count to six.
9. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to eight.
10. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.

156.

1. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
2. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
3. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
4. Play one long note in a middle register. Count to six.
5. Play two long unequal notes in a middle register with a small interval between them. Count to five.
6. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to five.
7. Play one long note in the highest register. Count to nine.
8. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
9. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
10. Play one long and one short note in a middle register with a large interval between them. Count to nine.

157.

1. Play two long unequal notes in a somewhat high register with a small interval between them. Count to six.
2. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
3. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to seven.
4. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
5. Play one long note in a somewhat high register. Count to seven.
6. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
7. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to six.
8. Play one short note in the highest register. Count to seven.
9. Play one long note in a somewhat low register. Count to seven.
10. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.
11. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
12. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
13. Play one short note in a somewhat low register. Count to six.
14. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.

158.

1. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
2. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
3. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
5. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
6. Play one long and one short note in a slightly low register with a large interval between them. Count to eight.
7. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
8. Play one long note in a slightly low register. Count to five.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to ten.
10. Play one long note in a slightly high register. Count to ten.

159.

1. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
2. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
3. Play one short note in the lowest register. Count to seven.
4. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to six.
5. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to ten.
6. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
7. Play one short note in the highest register. Count to six.
8. Play one short note in a middle register. Count to five.

160.

1. Play one short note in a somewhat low register. Count to ten.
2. Play one long note in the highest register. Count to nine.
3. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
4. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
5. Play one long and one short note in a middle register with a large interval between them. Count to nine.
6. Play one long and one short note in a somewhat low register with a small interval between them. Count to seven.
7. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to eight.
8. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.

161.

1. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
2. Play one long and one short note in a middle register with a small interval between them. Count to five.
3. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to seven.
4. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
5. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
6. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to ten.
7. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
8. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
9. Play one long and one short note in the lowest register with a large interval between them. Count to eight.
10. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
11. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
12. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.

162.

1. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
2. Play one long note in the highest register. Count to ten.
3. Play two long unequal notes in a somewhat high register with a large interval between them. Count to ten.
4. Play two long unequal notes in the highest register with a small interval between them. Count to six.
5. Play one long note in a somewhat high register. Count to ten.
6. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to nine.
7. Play one long note in a slightly low register. Count to six.
8. Play two long unequal notes in the highest register with a large interval between them. Count to ten.
9. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to eight.
10. Play two long unequal notes in a middle register with a small interval between them. Count to five.
11. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
12. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
13. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.

163.

1. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
2. Play one long note in a middle register. Count to six.
3. Play one long note in the highest register. Count to six.
4. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
5. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
6. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
7. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to five.
8. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
9. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
10. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
11. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to seven.

164.

1. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to six.
2. Play one long note in a slightly low register. Count to ten.
3. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
4. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to seven.
5. Play one long note in a slightly low register. Count to five.
6. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.
7. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
9. Play one long and one short note in a middle register with a small interval between them. Count to nine.
10. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to eight.
11. Play one long and one short note in a somewhat high register with a large interval between them. Count to seven.
12. Play one long note in the highest register. Count to ten.
13. Play one long note in the lowest register. Count to ten.
14. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.

165.

1. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
2. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to nine.
3. Play one long note in the highest register. Count to ten.
4. Play one long note in a slightly low register. Count to nine.
5. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
6. Play one long note in a slightly high register. Count to ten.
7. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
8. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
9. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to five.
10. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to eight.
11. Play two long unequal notes in the lowest register with a small interval between them. Count to eight.

166.

1. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to five.
2. Play one short note in a somewhat low register. Count to ten.
3. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
4. Play one long and one short note in a somewhat high register with a small interval between them. Count to ten.
5. Play one short note in a middle register. Count to five.
6. Play one long and one short note in the lowest register with a large interval between them. Count to five.
7. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to five.
8. Play one long note in a slightly low register. Count to ten.
9. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
10. Play one long note in the highest register. Count to five.
11. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
12. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to nine.
13. Play two long unequal notes in a slightly low register with a small interval between them. Count to six.

167.

1. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to nine.
2. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
3. Play one short note in a somewhat high register. Count to five.
4. Play one short note in a middle register. Count to ten.
5. Play one long note in a somewhat low register. Count to nine.
6. Play one short note in a somewhat high register. Count to eight.
7. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to five.
8. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
9. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to eight.
10. Play one short note in a middle register. Count to five.
11. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
12. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.

168.

1. Play one long note in a somewhat low register. Count to six.
2. Play one long note in a slightly low register. Count to ten.
3. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
5. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
6. Play two long unequal notes in a somewhat high register with a small interval between them. Count to eight.
7. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to five.
8. Play one long note in a middle register. Count to eight.
9. Play one short note in a slightly low register. Count to seven.
10. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to ten.

169.

1. Play one long note in a slightly high register. Count to ten.
2. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to five.
3. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to five.
4. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
5. Play one short note in a somewhat low register. Count to eight.
6. Play one long note in a slightly high register. Count to five.
7. Play two long unequal notes in a slightly high register with a large interval between them. Count to seven.
8. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
9. Play two long unequal notes in the highest register with a small interval between them. Count to five.
10. Play one short note in the highest register. Count to seven.
11. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.
12. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
13. Play one long and one short note in a somewhat low register with a large interval between them. Count to six.

170.

1. Play one short note in the highest register. Count to seven.
2. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
3. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes in a middle register with a small interval between them. Count to eight.
5. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to nine.
6. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to seven.
7. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
8. Play one long note in the lowest register. Count to nine.
9. Play one long and one short note in a slightly low register with a small interval between them. Count to five.
10. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
11. Play one long note in the highest register. Count to six.

171.

1. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
2. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to five.
3. Play two long unequal notes in a somewhat high register with a large interval between them. Count to seven.
4. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
6. Play one long note in a slightly high register. Count to seven.
7. Play one long note in a middle register. Count to five.
8. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
9. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to six.
10. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
11. Play one short note in a slightly low register. Count to six.

172.

1. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
2. Play one short note in a somewhat low register. Count to six.
3. Play one long and one short note in a middle register with a small interval between them. Count to eight.
4. Play one long and one short note in a slightly low register with a large interval between them. Count to six.
5. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
6. Play one long note in a slightly high register. Count to five.
7. Play one long note in the lowest register. Count to five.
8. Play one long note in a slightly low register. Count to eight.
9. Play one long note in a somewhat high register. Count to ten.
10. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
11. Play one short note in a slightly high register. Count to seven.
12. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.

173.

1. Play two long unequal notes in the highest register with a large interval between them. Count to ten.
2. Play one short note in a somewhat high register. Count to seven.
3. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
4. Play one short note in a slightly low register. Count to nine.
5. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
6. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.
7. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.
8. Play one long note in the highest register. Count to six.
9. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to five.
10. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
11. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
12. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
13. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to seven.
14. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.

174.

1. Play one long note in a somewhat high register. Count to six.
2. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes in the lowest register with a small interval between them. Count to six.
4. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
5. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to six.
6. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
7. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to nine.
8. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to nine.
9. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to eight.

175.

1. Play one long note in a middle register. Count to eight.
2. Play one long note in a slightly low register. Count to nine.
3. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
4. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
5. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.
6. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
7. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
8. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to nine.

176.

1. Play one long note in a slightly high register. Count to ten.
2. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
3. Play one long note in a slightly high register. Count to eight.
4. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
5. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.
6. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to nine.
7. Play two long unequal notes in a middle register with a large interval between them. Count to six.
8. Play one long note in a slightly low register. Count to five.
9. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.
10. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
11. Play one long note in a somewhat low register. Count to nine.
12. Play one short note in a somewhat low register. Count to eight.

177.

1. Play one short note in a middle register. Count to ten.
2. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to ten.
3. Play two long unequal notes in the highest register with a large interval between them. Count to eight.
4. Play one long note in the highest register. Count to ten.
5. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to six.
6. Play two long unequal notes in the lowest register with a small interval between them. Count to eight.
7. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
8. Play one long and one short note in the lowest register with a large interval between them. Count to nine.
9. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
10. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.
11. Play one long note in a middle register. Count to nine.
12. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
13. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
14. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to ten.

178.

1. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
2. Play one long and one short note in the lowest register with a small interval between them. Count to six.
3. Play one long note in the highest register. Count to six.
4. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to five.
5. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to five.
6. Play two long unequal notes in the highest register with a large interval between them. Count to nine.
7. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to ten.
8. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
9. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
10. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to five.
11. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to eight.
12. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to ten.
13. Play one long note in a slightly high register. Count to five.
14. Play one long note in the lowest register. Count to six.

179.

1. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
2. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
3. Play two long unequal notes in a somewhat low register with a small interval between them. Count to ten.
4. Play one long note in a somewhat high register. Count to five.
5. Play one long and one short note in a somewhat high register with a large interval between them. Count to ten.
6. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to seven.
7. Play one short note in a slightly low register. Count to ten.
8. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.
9. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
10. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
11. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to six.
12. Play one short note in a slightly high register. Count to nine.
13. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to ten.

180.

1. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
2. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to six.
3. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
4. Play one long note in a slightly low register. Count to nine.
5. Play one long note in a somewhat low register. Count to eight.
6. Play one long note in a slightly low register. Count to nine.
7. Play one long and one short note in a somewhat low register with a large interval between them. Count to five.
8. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to ten.
9. Play one long note in a somewhat high register. Count to six.

181.

1. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to five.
2. Play one long note in a slightly high register. Count to ten.
3. Play one short note in a slightly high register. Count to seven.
4. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
5. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
6. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
7. Play one long and one short note in the highest register with a small interval between them. Count to ten.
8. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to five.
9. Play one long note in a slightly low register. Count to five.

182.

1. Play one short note in a slightly high register. Count to nine.
2. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
3. Play one long note in a slightly low register. Count to six.
4. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.
5. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
6. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
7. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
8. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
9. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
10. Play one short note in a somewhat low register. Count to six.
11. Play one long note in a middle register. Count to six.
12. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to six.
13. Play one long note in the highest register. Count to nine.

183.

1. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to ten.
2. Play one long note in the highest register. Count to ten.
3. Play one long and one short note in a slightly low register with a large interval between them. Count to nine.
4. Play two long unequal notes in a somewhat high register with a small interval between them. Count to six.
5. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
6. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
7. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
8. Play one long note in a middle register. Count to nine.

184.

1. Play one long and one short note in a slightly high register with a small interval between them. Count to five.
2. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to ten.
3. Play one short note in a somewhat low register. Count to eight.
4. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to nine.
5. Play one short note in a slightly low register. Count to ten.
6. Play one long and one short note in the lowest register with a small interval between them. Count to six.
7. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to five.
8. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to six.
9. Play one long and one short note in the lowest register with a large interval between them. Count to five.

185.

1. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to six.
2. Play one short note in the lowest register. Count to six.
3. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
4. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
5. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to eight.
6. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
7. Play one long note in a somewhat high register. Count to eight.
8. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
9. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
10. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
11. Play one long note in a slightly high register. Count to eight.
12. Play one long note in a somewhat high register. Count to five.

186.

1. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
2. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
3. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
4. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes in the highest register with a small interval between them. Count to five.
6. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to five.
7. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
8. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
9. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
10. Play one long note in a middle register. Count to ten.
11. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to six.

187.

1. Play one long note in a middle register. Count to nine.
2. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
3. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
4. Play one long note in a slightly low register. Count to seven.
5. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to seven.
6. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
7. Play one long and one short note in a middle register with a large interval between them. Count to seven.
8. Play one long and one short note in a slightly low register with a large interval between them. Count to five.
9. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
10. Play one long and one short note in a somewhat low register with a large interval between them. Count to ten.
11. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
12. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to five.
13. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.

188.

1. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to seven.
2. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
3. Play one long note in a slightly low register. Count to six.
4. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
5. Play one long and one short note in the lowest register with a small interval between them. Count to five.
6. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
7. Play one long note in a slightly high register. Count to nine.
8. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
9. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to five.
10. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.

189.

1. Play one short note in a somewhat high register. Count to five.
2. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to five.
4. Play one long note in a somewhat high register. Count to seven.
5. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
6. Play one short note in the highest register. Count to eight.
7. Play one short note in a slightly low register. Count to seven.
8. Play two long unequal notes in the highest register with a large interval between them. Count to five.
9. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to nine.
10. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
11. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to nine.

190.

1. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.
2. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to seven.
3. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
4. Play one long note in a somewhat low register. Count to eight.
5. Play one short note in a slightly low register. Count to seven.
6. Play one long and one short note in a slightly high register with a large interval between them. Count to eight.
7. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
8. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
9. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.

191.

1. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to five.
2. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
3. Play one long note in the highest register. Count to nine.
4. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes in a somewhat low register with a small interval between them. Count to five.
6. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to eight.
7. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to nine.
8. Play two long unequal notes in the highest register with a large interval between them. Count to nine.
9. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to eight.

192.

1. Play one long note in the lowest register. Count to eight.
2. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.
3. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
4. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to nine.
5. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to eight.
6. Play one long and one short note in a middle register with a large interval between them. Count to seven.
7. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to eight.
8. Play one long note in a slightly low register. Count to five.
9. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to six.
10. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to six.
11. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
12. Play two long unequal notes in the highest register with a small interval between them. Count to seven.
13. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
14. Play one long note in a somewhat low register. Count to nine.

193.

1. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
2. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
3. Play one long note in a middle register. Count to ten.
4. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to five.
5. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
6. Play one short note in a slightly low register. Count to eight.
7. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
8. Play two long unequal notes in a somewhat low register with a small interval between them. Count to six.
9. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.

194.

1. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
2. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
3. Play one short note in a slightly high register. Count to nine.
4. Play one long and one short note in a slightly high register with a small interval between them. Count to six.
5. Play one long note in a middle register. Count to eight.
6. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to seven.
7. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
8. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to six.

195.

1. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.
2. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes in the highest register with a large interval between them. Count to six.
4. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to five.
6. Play one long and one short note in the highest register with a large interval between them. Count to ten.
7. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
8. Play one long and one short note in a slightly low register with a small interval between them. Count to six.
9. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to six.
10. Play two long unequal notes in the highest register with a large interval between them. Count to five.
11. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.

196.

1. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
2. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
3. Play one long note in the lowest register. Count to six.
4. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.
5. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
6. Play one long and one short note in the lowest register with a large interval between them. Count to nine.
7. Play one short note in the lowest register. Count to five.
8. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to nine.
9. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
10. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
11. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.

197.

1. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
2. Play one long and one short note in a slightly low register with a small interval between them. Count to ten.
3. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to eight.
4. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
5. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
6. Play one short note in a middle register. Count to five.
7. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
8. Play one short note in a slightly high register. Count to six.
9. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.

198.

1. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes in a somewhat low register with a large interval between them. Count to seven.
3. Play two long unequal notes in the lowest register with a large interval between them. Count to nine.
4. Play one short note in a somewhat low register. Count to five.
5. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
6. Play one long note in the highest register. Count to nine.
7. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
8. Play one long note in a slightly high register. Count to five.
9. Play one long note in the highest register. Count to eight.
10. Play one long and one short note in a slightly low register with a large interval between them. Count to eight.
11. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
12. Play one long note in the lowest register. Count to six.
13. Play one short note in a slightly high register. Count to ten.

199.

1. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
2. Play one long note in the highest register. Count to ten.
3. Play one short note in a somewhat high register. Count to ten.
4. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
5. Play one long note in the highest register. Count to eight.
6. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to eight.
7. Play two long unequal notes in the lowest register with a large interval between them. Count to five.
8. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.

200.

1. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
2. Play one long note in the highest register. Count to eight.
3. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
4. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
5. Play two long unequal notes in a somewhat low register with a small interval between them. Count to ten.
6. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
7. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
8. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
9. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to ten.
10. Play one short note in a slightly low register. Count to seven.
11. Play two long unequal notes in a somewhat high register with a large interval between them. Count to ten.
12. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to eight.

201.

1. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
2. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
3. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
4. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to five.
5. Play two long unequal notes in the highest register with a small interval between them. Count to seven.
6. Play two long unequal notes in a slightly high register with a small interval between them. Count to eight.
7. Play one long note in the lowest register. Count to six.
8. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.
9. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
10. Play two long unequal notes in the highest register with a small interval between them. Count to ten.
11. Play one long and one short note in a middle register with a large interval between them. Count to six.

202.

1. Play two long unequal notes in a slightly low register with a small interval between them. Count to eight.
2. Play one long note in the lowest register. Count to five.
3. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to nine.
4. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.
5. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
6. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
7. Play one long note in a somewhat high register. Count to eight.
8. Play two long unequal notes in a somewhat high register with a small interval between them. Count to five.
9. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
10. Play one long note in the lowest register. Count to seven.
11. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to eight.
12. Play one long note in a somewhat low register. Count to nine.

203.

1. Play one long note in the highest register. Count to six.
2. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes in a middle register with a small interval between them. Count to ten.
4. Play one long note in a middle register. Count to seven.
5. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
6. Play two long unequal notes in the lowest register with a small interval between them. Count to seven.
7. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
8. Play one long note in a somewhat high register. Count to ten.
9. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
10. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to five.
11. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.

204.

1. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.
3. Play one long and one short note in a slightly high register with a large interval between them. Count to ten.
4. Play one long note in a slightly high register. Count to five.
5. Play one long note in a middle register. Count to seven.
6. Play one long note in a slightly high register. Count to eight.
7. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
8. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.

205.

1. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
2. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
3. Play one long note in a somewhat high register. Count to six.
4. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
5. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
6. Play one long note in a somewhat high register. Count to five.
7. Play one long note in the lowest register. Count to nine.
8. Play one long note in a somewhat high register. Count to ten.
9. Play two long unequal notes in a slightly low register with a large interval between them. Count to six.
10. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
11. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
12. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
13. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
14. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.

206.

1. Play two long unequal notes in the lowest register with a large interval between them. Count to seven.
2. Play two long unequal notes in the lowest register with a small interval between them. Count to ten.
3. Play two long unequal notes in a somewhat low register with a small interval between them. Count to eight.
4. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
5. Play one long note in a somewhat high register. Count to ten.
6. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to ten.
7. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to five.
8. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to nine.

207.

1. Play one long note in a slightly high register. Count to six.
2. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
3. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
4. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.
5. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
6. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to nine.
7. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
8. Play two long unequal notes in the highest register with a small interval between them. Count to nine.
9. Play one long note in a slightly low register. Count to five.

208.

1. Play one long and one short note in the lowest register with a small interval between them. Count to ten.
2. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
3. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to ten.
4. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
5. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to seven.
6. Play one long and one short note in a middle register with a small interval between them. Count to nine.
7. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
8. Play one short note in a slightly low register. Count to six.
9. Play one long note in the lowest register. Count to seven.
10. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
11. Play one long note in a slightly low register. Count to ten.
12. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
13. Play one short note in a slightly low register. Count to eight.

209.

1. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.
2. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to ten.
3. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to six.
4. Play two long unequal notes in a middle register with a small interval between them. Count to five.
5. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to eight.
6. Play one short note in the lowest register. Count to nine.
7. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
8. Play two long unequal notes in a middle register with a small interval between them. Count to eight.
9. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
10. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to five.
11. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to six.
12. Play one long note in a somewhat low register. Count to five.

210.

1. Play one long note in a somewhat high register. Count to seven.
2. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
3. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
4. Play one long note in a somewhat high register. Count to ten.
5. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
6. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
7. Play two long unequal notes in a slightly high register with a small interval between them. Count to seven.
8. Play one long note in a somewhat high register. Count to seven.
9. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
10. Play two long unequal notes in a slightly low register with a large interval between them. Count to seven.

211.

1. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to seven.
2. Play one short note in a somewhat high register. Count to eight.
3. Play one long note in a somewhat high register. Count to ten.
4. Play one short note in the highest register. Count to ten.
5. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to seven.
6. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
7. Play one long note in a slightly high register. Count to ten.
8. Play one long and one short note in a middle register with a small interval between them. Count to seven.
9. Play one long and one short note in a somewhat high register with a large interval between them. Count to ten.
10. Play two long unequal notes in a middle register with a large interval between them. Count to five.
11. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
12. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
13. Play one long and one short note in the highest register with a small interval between them. Count to eight.
14. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.

212.

1. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
2. Play one long note in a somewhat low register. Count to five.
3. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
4. Play one short note in a slightly high register. Count to seven.
5. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
6. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
7. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
8. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
9. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
10. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to ten.
11. Play one long note in a somewhat low register. Count to seven.
12. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
13. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.

213.

1. Play one long note in a slightly low register. Count to eight.
2. Play one long note in the highest register. Count to ten.
3. Play one long note in the lowest register. Count to six.
4. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
5. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
6. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
7. Play one long note in a middle register. Count to ten.
8. Play one short note in a somewhat high register. Count to nine.
9. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
10. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.
11. Play one short note in a slightly high register. Count to ten.
12. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
13. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to eight.

214.

1. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
2. Play one long note in the lowest register. Count to ten.
3. Play one long note in the lowest register. Count to five.
4. Play one long note in a somewhat high register. Count to ten.
5. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
6. Play one short note in the lowest register. Count to six.
7. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to six.
8. Play one long note in a middle register. Count to eight.
9. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to six.
10. Play two long unequal notes in a somewhat low register with a large interval between them. Count to eight.
11. Play one long and one short note in a slightly low register with a small interval between them. Count to seven.
12. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to seven.
13. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
14. Play one short note in a slightly low register. Count to seven.

215.

1. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
2. Play one long and one short note in a somewhat low register with a small interval between them. Count to nine.
3. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
4. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to six.
5. Play one short note in a somewhat high register. Count to nine.
6. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
7. Play one long note in a middle register. Count to seven.
8. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.
9. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
10. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to five.
11. Play one short note in a slightly low register. Count to ten.
12. Play one long and one short note in the lowest register with a small interval between them. Count to ten.
13. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
14. Play one long and one short note in a somewhat low register with a large interval between them. Count to six.

216.

1. Play one long note in a somewhat low register. Count to nine.
2. Play one long note in a slightly high register. Count to ten.
3. Play one long and one short note in a middle register with a small interval between them. Count to nine.
4. Play one short note in a slightly low register. Count to eight.
5. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
6. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
7. Play one short note in a middle register. Count to nine.
8. Play one long note in a slightly low register. Count to six.
9. Play one long and one short note in the lowest register with a small interval between them. Count to seven.
10. Play one long note in a somewhat low register. Count to six.
11. Play two long unequal notes in a slightly low register with a large interval between them. Count to six.

217.

1. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
2. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
3. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
4. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.
5. Play two long unequal notes in a somewhat high register with a small interval between them. Count to seven.
6. Play one long note in a slightly high register. Count to five.
7. Play one long note in a middle register. Count to nine.
8. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.

218.

1. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
2. Play one short note in the highest register. Count to ten.
3. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
4. Play one short note in a slightly high register. Count to nine.
5. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
6. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
7. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
8. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
9. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
10. Play one long and one short note in a somewhat low register with a small interval between them. Count to six.
11. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
12. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to five.

219.

1. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to ten.
2. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
3. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
4. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
5. Play two long unequal notes in a somewhat high register with a large interval between them. Count to ten.
6. Play one long note in the lowest register. Count to ten.
7. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to eight.
8. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
9. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
10. Play one long and one short note in a somewhat low register with a large interval between them. Count to five.
11. Play one long and one short note in a slightly high register with a large interval between them. Count to five.
12. Play two long unequal notes in a somewhat high register with a small interval between them. Count to nine.

220.

1. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to eight.
2. Play one short note in a slightly high register. Count to nine.
3. Play one short note in the lowest register. Count to ten.
4. Play one long note in a somewhat low register. Count to seven.
5. Play one long and one short note in a somewhat low register with a small interval between them. Count to five.
6. Play one short note in the lowest register. Count to seven.
7. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
8. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
9. Play one long note in a slightly high register. Count to eight.
10. Play two long unequal notes in a somewhat low register with a large interval between them. Count to eight.

221.

1. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to seven.
2. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to five.
3. Play one long and one short note in a somewhat high register with a small interval between them. Count to seven.
4. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to six.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.
6. Play one short note in a slightly high register. Count to seven.
7. Play two long unequal notes in the highest register with a small interval between them. Count to eight.
8. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to eight.

222.

1. Play one long and one short note in a slightly high register with a large interval between them. Count to seven.
2. Play one short note in a somewhat high register. Count to nine.
3. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
4. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to five.
5. Play two long unequal notes in a slightly high register with a large interval between them. Count to eight.
6. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to five.
7. Play two long unequal notes in a slightly high register with a large interval between them. Count to six.
8. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
9. Play two long unequal notes in a middle register with a small interval between them. Count to six.
10. Play one long note in the lowest register. Count to eight.

223.

1. Play two long unequal notes in a somewhat high register with a small interval between them. Count to ten.
2. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
3. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
4. Play one long note in the lowest register. Count to ten.
5. Play one long note in a slightly high register. Count to six.
6. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to five.
7. Play one long note in a somewhat high register. Count to eight.
8. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to six.
9. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.

224.

1. Play one long note in the highest register. Count to six.
2. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
3. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to seven.
4. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to six.
5. Play two long unequal notes in a slightly low register with a small interval between them. Count to five.
6. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
7. Play one long note in a somewhat low register. Count to nine.
8. Play one long and one short note in a slightly low register with a small interval between them. Count to six.
9. Play one long note in a somewhat high register. Count to ten.
10. Play one short note in a slightly low register. Count to nine.

225.

1. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
2. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
3. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
4. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to seven.
5. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
6. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.
7. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
8. Play one long and one short note in a somewhat low register with a large interval between them. Count to nine.
9. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
10. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to six.
11. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.

226.

1. Play one long and one short note in a slightly high register with a large interval between them. Count to six.
2. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to ten.
3. Play one short note in the lowest register. Count to eight.
4. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
5. Play one short note in a somewhat high register. Count to six.
6. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
7. Play one short note in a somewhat low register. Count to seven.
8. Play one long and one short note in the lowest register with a small interval between them. Count to seven.
9. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
10. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
11. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
12. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
13. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
14. Play one long note in a slightly low register. Count to six.

227.

1. Play one short note in a somewhat low register. Count to six.
2. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
3. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
4. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to nine.
5. Play one long note in a somewhat low register. Count to seven.
6. Play one long note in a middle register. Count to eight.
7. Play one long note in a somewhat high register. Count to ten.
8. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
9. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
10. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to eight.

228.

1. Play two long unequal notes in a slightly low register with a large interval between them. Count to five.
2. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
3. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
4. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
5. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
6. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
7. Play one long and one short note in a somewhat high register with a small interval between them. Count to eight.
8. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
9. Play one long note in a somewhat low register. Count to ten.
10. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
11. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to seven.

229.

1. Play one long and one short note in the lowest register with a large interval between them. Count to seven.
2. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
3. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
4. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
5. Play two long unequal notes in a slightly low register with a large interval between them. Count to seven.
6. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
7. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
8. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.

230.

1. Play one long note in a slightly high register. Count to six.
2. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes in a middle register with a large interval between them. Count to eight.
4. Play one long note in the highest register. Count to nine.
5. Play one long and one short note in a middle register with a small interval between them. Count to eight.
6. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to five.
7. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
8. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.

231.

1. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
2. Play two long unequal notes in a somewhat low register with a large interval between them. Count to seven.
3. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
4. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in a slightly low register with a large interval between them. Count to seven.
6. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
7. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to eight.
8. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.
9. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
10. Play two long unequal notes in a somewhat low register with a small interval between them. Count to eight.
11. Play one long note in the highest register. Count to seven.
12. Play one short note in a slightly low register. Count to six.
13. Play two long unequal notes in a somewhat high register with a small interval between them. Count to seven.

232.

1. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
2. Play one long note in the lowest register. Count to ten.
3. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes in a middle register with a small interval between them. Count to nine.
5. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
6. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
7. Play one long and one short note in a slightly low register with a large interval between them. Count to five.
8. Play one long note in the highest register. Count to six.
9. Play one long and one short note in a middle register with a large interval between them. Count to ten.
10. Play one long and one short note in a middle register with a small interval between them. Count to ten.
11. Play one long and one short note in a slightly low register with a small interval between them. Count to five.
12. Play one long note in a somewhat high register. Count to six.

233.

1. Play one long note in a slightly low register. Count to eight.
2. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
3. Play one long note in a somewhat high register. Count to ten.
4. Play one long note in a somewhat high register. Count to five.
5. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
6. Play one long and one short note in the highest register with a large interval between them. Count to six.
7. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
8. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
9. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to ten.
10. Play two long unequal notes in a middle register with a small interval between them. Count to eight.
11. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
12. Play one long note in the lowest register. Count to eight.
13. Play one long and one short note in a somewhat low register with a small interval between them. Count to nine.
14. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.

234.

1. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
2. Play two long unequal notes in a somewhat low register with a small interval between them. Count to nine.
3. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to eight.
4. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
5. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.
6. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
7. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
8. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to six.
9. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.
10. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
11. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
12. Play one long note in a somewhat high register. Count to eight.
13. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.

235.

1. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
2. Play one long note in a somewhat high register. Count to six.
3. Play two long unequal notes in the highest register with a small interval between them. Count to five.
4. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
5. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to seven.
6. Play one long note in the highest register. Count to five.
7. Play two long unequal notes in a somewhat low register with a large interval between them. Count to five.
8. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.
9. Play two long unequal notes in a slightly high register with a large interval between them. Count to five.
10. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
11. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
12. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
13. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
14. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.

236.

1. Play one long note in the highest register. Count to five.
2. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
4. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
5. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
6. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
7. Play one short note in a slightly high register. Count to eight.
8. Play one long note in a slightly high register. Count to eight.
9. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
10. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
11. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to ten.
12. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
13. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to five.

237.

1. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to nine.
2. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
3. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
4. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to nine.
5. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
6. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.
7. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
8. Play one long note in the highest register. Count to seven.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to eight.
10. Play one long note in the lowest register. Count to seven.
11. Play two long unequal notes in the highest register with a large interval between them. Count to seven.
12. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
13. Play one short note in a somewhat high register. Count to six.
14. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.

238.

1. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to six.
2. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to seven.
3. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
4. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
5. Play one long note in the highest register. Count to seven.
6. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
7. Play one long note in a somewhat high register. Count to five.
8. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
9. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
10. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.
11. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
12. Play one short note in a middle register. Count to ten.

239.

1. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
2. Play two long unequal notes in the lowest register with a large interval between them. Count to seven.
3. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to eight.
4. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
5. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
6. Play one long note in a somewhat low register. Count to six.
7. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
8. Play two long unequal notes in a slightly low register with a large interval between them. Count to six.
9. Play one short note in a somewhat high register. Count to eight.

240.

1. Play one long note in the highest register. Count to six.
2. Play two long unequal notes in the lowest register with a small interval between them. Count to seven.
3. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to eight.
4. Play one long note in a slightly low register. Count to ten.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to ten.
6. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
7. Play two long unequal notes in a middle register with a large interval between them. Count to five.
8. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
9. Play one short note in a slightly high register. Count to five.
10. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to nine.
11. Play two long unequal notes in the lowest register with a small interval between them. Count to five.
12. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
13. Play one short note in the lowest register. Count to ten.
14. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.

241.

1. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to five.
2. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.
3. Play one short note in a somewhat low register. Count to ten.
4. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.
5. Play one short note in the lowest register. Count to ten.
6. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
7. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to seven.
8. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
9. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
10. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
11. Play one long note in a slightly low register. Count to seven.
12. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.
13. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
14. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.

242.

1. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to six.
2. Play one long and one short note in a slightly high register with a large interval between them. Count to seven.
3. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
4. Play one short note in a slightly high register. Count to nine.
5. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
6. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to ten.
7. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
8. Play one long note in the lowest register. Count to five.
9. Play two long unequal notes in a somewhat low register with a small interval between them. Count to nine.

243.

1. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
2. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
4. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to nine.
5. Play one short note in a slightly high register. Count to six.
6. Play one short note in a somewhat high register. Count to five.
7. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to seven.
8. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
9. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.
10. Play two long unequal notes in the lowest register with a large interval between them. Count to six.
11. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to ten.

244.

1. Play one long note in a slightly low register. Count to seven.
2. Play one long note in the highest register. Count to ten.
3. Play one long and one short note in a middle register with a small interval between them. Count to six.
4. Play one long note in the lowest register. Count to eight.
5. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
6. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
7. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to seven.
8. Play one long and one short note in a somewhat low register with a small interval between them. Count to nine.
9. Play one long note in the lowest register. Count to five.
10. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
11. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to seven.
12. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.

245.

1. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
2. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
3. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to nine.
4. Play one long note in a slightly high register. Count to seven.
5. Play one long note in a middle register. Count to nine.
6. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
7. Play one short note in a slightly low register. Count to eight.
8. Play one long note in the lowest register. Count to six.
9. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
10. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to nine.
11. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.

246.

1. Play two long unequal notes in a slightly high register with a large interval between them. Count to eight.
2. Play one long note in a slightly high register. Count to ten.
3. Play one long note in a slightly high register. Count to seven.
4. Play one long and one short note in a somewhat high register with a small interval between them. Count to ten.
5. Play one long note in the highest register. Count to six.
6. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
7. Play one long and one short note in a slightly low register with a large interval between them. Count to ten.
8. Play two long unequal notes in a somewhat high register with a small interval between them. Count to nine.

247.

1. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
2. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to seven.
3. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to nine.
5. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
6. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
7. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
9. Play one long note in a somewhat low register. Count to nine.
10. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to nine.
11. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
12. Play one short note in the highest register. Count to five.
13. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.

248.

1. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
2. Play one long and one short note in the lowest register with a small interval between them. Count to six.
3. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to seven.
4. Play one long note in a slightly high register. Count to eight.
5. Play one short note in a somewhat low register. Count to seven.
6. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
7. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to six.
8. Play two long unequal notes in the lowest register with a large interval between them. Count to nine.
9. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.
10. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
11. Play one long and one short note in the lowest register with a small interval between them. Count to seven.
12. Play one long note in the lowest register. Count to ten.
13. Play two long unequal notes in a slightly low register with a large interval between them. Count to ten.

249.

1. Play one short note in a slightly high register. Count to nine.
2. Play two long unequal notes in a somewhat high register with a large interval between them. Count to ten.
3. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.
4. Play one long and one short note in a somewhat high register with a small interval between them. Count to seven.
5. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
6. Play one long and one short note in a middle register with a small interval between them. Count to ten.
7. Play one short note in a slightly low register. Count to seven.
8. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
9. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to five.
10. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.

250.

1. Play one long note in the highest register. Count to ten.
2. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
3. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
4. Play one short note in a somewhat high register. Count to nine.
5. Play one short note in a slightly low register. Count to eight.
6. Play one short note in a somewhat low register. Count to five.
7. Play one short note in the highest register. Count to seven.
8. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to five.
9. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
10. Play one long note in the lowest register. Count to five.
11. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to five.
12. Play one long note in the highest register. Count to nine.
13. Play one long and one short note in a somewhat low register with a small interval between them. Count to seven.
14. Play one long note in the lowest register. Count to seven.

251.

1. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.
2. Play one short note in a middle register. Count to five.
3. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
4. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
5. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
6. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
7. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
8. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
9. Play one short note in the highest register. Count to six.
10. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
11. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
12. Play one long note in a somewhat high register. Count to five.
13. Play one short note in a slightly high register. Count to ten.
14. Play one long note in a somewhat high register. Count to five.

252.

1. Play one long note in a somewhat high register. Count to seven.
2. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
3. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.
4. Play one short note in a middle register. Count to five.
5. Play one short note in a slightly low register. Count to seven.
6. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.
7. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
8. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to six.
9. Play one short note in a middle register. Count to eight.
10. Play one long and one short note in a somewhat high register with a large interval between them. Count to ten.
11. Play one long note in a slightly low register. Count to six.
12. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
13. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.

253.

1. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
2. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
3. Play one long note in the lowest register. Count to seven.
4. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
5. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to nine.
6. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to six.
7. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
8. Play two long unequal notes in the highest register with a large interval between them. Count to eight.
9. Play two long unequal notes in a somewhat low register with a small interval between them. Count to nine.

254.

1. Play one long note in the highest register. Count to nine.
2. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
3. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to eight.
4. Play two long unequal notes in a somewhat low register with a large interval between them. Count to nine.
5. Play one long note in the highest register. Count to five.
6. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
7. Play one long note in a middle register. Count to seven.
8. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to nine.
9. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
10. Play one short note in a slightly high register. Count to five.
11. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.

255.

1. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to six.
2. Play one long and one short note in a somewhat high register with a small interval between them. Count to ten.
3. Play one long and one short note in the lowest register with a small interval between them. Count to six.
4. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
5. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
6. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to seven.
7. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
8. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.

256.

1. Play one long and one short note in the lowest register with a small interval between them. Count to ten.
2. Play one short note in a somewhat low register. Count to six.
3. Play one long note in a somewhat high register. Count to six.
4. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
5. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to six.
6. Play one long note in a somewhat high register. Count to eight.
7. Play one long and one short note in a slightly high register with a large interval between them. Count to ten.
8. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
9. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.

257.

1. Play one short note in a middle register. Count to six.
2. Play one long note in a somewhat high register. Count to eight.
3. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes in the highest register with a small interval between them. Count to nine.
5. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
6. Play one long and one short note in a slightly low register with a small interval between them. Count to nine.
7. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
8. Play one short note in the highest register. Count to nine.
9. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.

258.

1. Play one long and one short note in a slightly high register with a large interval between them. Count to nine.
2. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play one short note in the highest register. Count to ten.
4. Play one long note in the lowest register. Count to seven.
5. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to ten.
6. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
7. Play one long note in a slightly low register. Count to five.
8. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to five.
9. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
10. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
11. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to nine.

259.

1. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
2. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
3. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to five.
4. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
5. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
6. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to six.
7. Play two long unequal notes in the highest register with a large interval between them. Count to eight.
8. Play two long unequal notes in the lowest register with a small interval between them. Count to seven.
9. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
10. Play one short note in a slightly low register. Count to ten.
11. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.
12. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to ten.
13. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to eight.

260.

1. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
2. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
3. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.
4. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.
5. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
6. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
7. Play one long and one short note in a somewhat low register with a large interval between them. Count to nine.
8. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
9. Play one short note in a somewhat high register. Count to six.
10. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to five.
11. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
12. Play one long note in a slightly low register. Count to five.

261.

1. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
2. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
3. Play one long note in the highest register. Count to eight.
4. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
5. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to eight.
6. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to ten.
7. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to eight.
8. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.
9. Play one long note in a slightly low register. Count to five.
10. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to ten.

262.

1. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
2. Play one long note in a somewhat low register. Count to ten.
3. Play one long and one short note in the highest register with a large interval between them. Count to seven.
4. Play one long and one short note in the lowest register with a large interval between them. Count to eight.
5. Play one long note in a slightly low register. Count to eight.
6. Play two long unequal notes in a somewhat high register with a small interval between them. Count to seven.
7. Play one long note in the highest register. Count to five.
8. Play one short note in a slightly high register. Count to ten.
9. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.

263.

1. Play two long unequal notes in a middle register with a small interval between them. Count to ten.
2. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
3. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
4. Play one long note in a somewhat low register. Count to six.
5. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
6. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to eight.
7. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
8. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to five.

264.

1. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes in a slightly high register with a large interval between them. Count to seven.
3. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to nine.
4. Play one short note in a slightly low register. Count to six.
5. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
6. Play one long note in a slightly high register. Count to nine.
7. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
8. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
9. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
10. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to seven.
11. Play one long note in a slightly high register. Count to five.

265.

1. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
2. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
3. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to ten.
4. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
5. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to six.
6. Play one long note in a middle register. Count to nine.
7. Play one short note in the highest register. Count to seven.
8. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
9. Play two long unequal notes in a slightly low register with a small interval between them. Count to nine.
10. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
11. Play one long note in a slightly high register. Count to eight.

266.

1. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
2. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
3. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to six.
4. Play two long unequal notes in a somewhat high register with a large interval between them. Count to ten.
5. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to nine.
6. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
7. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
8. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
9. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
10. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to six.
11. Play one long note in the highest register. Count to seven.
12. Play one long note in a somewhat low register. Count to nine.
13. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to nine.
14. Play one long note in the highest register. Count to eight.

267.

1. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
2. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to five.
3. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
5. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
6. Play one long and one short note in a slightly high register with a large interval between them. Count to six.
7. Play two long unequal notes in a middle register with a small interval between them. Count to ten.
8. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to ten.

268.

1. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
2. Play one long note in the highest register. Count to seven.
3. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to ten.
4. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
5. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
6. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to nine.
7. Play one long and one short note in a middle register with a large interval between them. Count to ten.
8. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
9. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.
10. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
11. Play one short note in a slightly high register. Count to five.
12. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to seven.
13. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
14. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.

269.

1. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
2. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
3. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
4. Play two long unequal notes in a slightly high register with a small interval between them. Count to eight.
5. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
6. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to nine.
7. Play one short note in a somewhat low register. Count to six.
8. Play one long and one short note in a middle register with a large interval between them. Count to eight.
9. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to seven.
10. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to eight.
11. Play two long unequal notes in a somewhat high register with a small interval between them. Count to six.
12. Play one short note in a slightly high register. Count to ten.

270.

1. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
2. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
3. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to nine.
4. Play one long and one short note in a somewhat low register with a small interval between them. Count to six.
5. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to five.
6. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to nine.
7. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
8. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
9. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to five.

271.

1. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
2. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to ten.
3. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
4. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
5. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
6. Play one long note in the highest register. Count to seven.
7. Play one long note in a slightly high register. Count to five.
8. Play one long note in a slightly high register. Count to five.
9. Play one short note in a middle register. Count to ten.
10. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to eight.
11. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.

272.

1. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
2. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play one long and one short note in the lowest register with a small interval between them. Count to nine.
4. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
5. Play one short note in a somewhat low register. Count to nine.
6. Play one long note in a slightly low register. Count to seven.
7. Play one long and one short note in a slightly high register with a small interval between them. Count to ten.
8. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to six.
9. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to seven.

273.

1. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
2. Play one short note in a slightly low register. Count to seven.
3. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to six.
4. Play one long and one short note in a slightly low register with a large interval between them. Count to nine.
5. Play one short note in a somewhat high register. Count to nine.
6. Play one short note in the highest register. Count to seven.
7. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
9. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
10. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to nine.

274.

1. Play one long and one short note in the lowest register with a large interval between them. Count to six.
2. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to five.
3. Play two long unequal notes in a slightly high register with a large interval between them. Count to six.
4. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to six.
5. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
6. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
7. Play one short note in the highest register. Count to eight.
8. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
9. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.

275.

1. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.
2. Play one short note in a somewhat high register. Count to ten.
3. Play one long and one short note in the lowest register with a small interval between them. Count to five.
4. Play two long unequal notes in a somewhat low register with a large interval between them. Count to nine.
5. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
6. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
7. Play one long note in the lowest register. Count to ten.
8. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to eight.
9. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.
10. Play one long note in the lowest register. Count to ten.

276.

1. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
2. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
3. Play one long note in the lowest register. Count to eight.
4. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
5. Play one long and one short note in a somewhat low register with a small interval between them. Count to six.
6. Play one long note in a somewhat high register. Count to ten.
7. Play one long and one short note in a slightly high register with a small interval between them. Count to five.
8. Play one short note in a slightly low register. Count to seven.
9. Play one short note in a slightly high register. Count to five.
10. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
11. Play one short note in a slightly high register. Count to eight.
12. Play two long unequal notes in a slightly low register with a small interval between them. Count to eight.
13. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
14. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.

277.

1. Play one long note in the highest register. Count to six.
2. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
3. Play two long unequal notes in the lowest register with a small interval between them. Count to eight.
4. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to nine.
5. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
6. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
7. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.
8. Play one short note in a somewhat low register. Count to seven.
9. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to eight.
10. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
11. Play two long unequal notes in a middle register with a large interval between them. Count to nine.
12. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.

278.

1. Play one long note in the highest register. Count to seven.
2. Play one long note in a middle register. Count to ten.
3. Play one long note in the lowest register. Count to ten.
4. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to eight.
6. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
7. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
8. Play one long and one short note in the lowest register with a large interval between them. Count to five.
9. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.
10. Play one long note in the lowest register. Count to six.
11. Play one long note in a slightly high register. Count to six.

279.

1. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to five.
3. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to nine.
4. Play two long unequal notes in a somewhat high register with a small interval between them. Count to seven.
5. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
6. Play one short note in the lowest register. Count to nine.
7. Play two long unequal notes in a somewhat high register with a large interval between them. Count to nine.
8. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
9. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
10. Play one long note in a slightly low register. Count to five.
11. Play one long note in a slightly low register. Count to seven.

280.

1. Play two long unequal notes in a somewhat low register with a small interval between them. Count to six.
2. Play two long unequal notes in the lowest register with a large interval between them. Count to five.
3. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
4. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
5. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
6. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
7. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
8. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to five.
9. Play one short note in a slightly low register. Count to ten.
10. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
11. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.

281.

1. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
2. Play one short note in a somewhat high register. Count to seven.
3. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
4. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to ten.
5. Play two long unequal notes in a slightly low register with a large interval between them. Count to seven.
6. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
7. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
8. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to ten.
9. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
10. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to eight.
11. Play one long note in the lowest register. Count to six.
12. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.

282.

1. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
2. Play one long note in a slightly low register. Count to six.
3. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to five.
4. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to ten.
5. Play one long note in a somewhat high register. Count to ten.
6. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
7. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
8. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to six.
9. Play one long and one short note in a somewhat low register with a large interval between them. Count to ten.
10. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
11. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to eight.
12. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
13. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.

283.

1. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
2. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
3. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to five.
4. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
5. Play one long and one short note in the lowest register with a small interval between them. Count to six.
6. Play one long note in the highest register. Count to eight.
7. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to eight.
8. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
9. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to eight.
10. Play one long and one short note in a slightly low register with a small interval between them. Count to six.
11. Play one long note in a slightly high register. Count to eight.

284.

1. Play one long note in the lowest register. Count to five.
2. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
3. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
4. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes in a somewhat low register with a small interval between them. Count to seven.
6. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
8. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to eight.
10. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
11. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
12. Play two long unequal notes in the highest register with a large interval between them. Count to five.
13. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to nine.

285.

1. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to five.
2. Play one short note in a slightly high register. Count to eight.
3. Play one long and one short note in the highest register with a small interval between them. Count to seven.
4. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
5. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.
6. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to six.
7. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to ten.
8. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
9. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.
10. Play one long note in the lowest register. Count to seven.
11. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.

286.

1. Play one long note in the lowest register. Count to five.
2. Play two long unequal notes in a somewhat high register with a small interval between them. Count to nine.
3. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
4. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
5. Play one short note in the highest register. Count to seven.
6. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to eight.
7. Play one long note in a slightly low register. Count to five.
8. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
9. Play one short note in a slightly low register. Count to nine.
10. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to five.
11. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
12. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
13. Play one long note in a middle register. Count to eight.

287.

1. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
2. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
3. Play two long unequal notes in a slightly low register with a large interval between them. Count to seven.
4. Play two long unequal notes in a somewhat high register with a large interval between them. Count to eight.
5. Play one long note in a slightly high register. Count to seven.
6. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to six.
7. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
8. Play one short note in a middle register. Count to eight.
9. Play one long and one short note in a somewhat high register with a large interval between them. Count to seven.
10. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to ten.
11. Play two long unequal notes in a middle register with a large interval between them. Count to nine.
12. Play one long and one short note in the highest register with a small interval between them. Count to six.
13. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
14. Play one long note in the lowest register. Count to eight.

288.

1. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
2. Play one long and one short note in a slightly high register with a large interval between them. Count to nine.
3. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
4. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
6. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to seven.
7. Play one long and one short note in a slightly high register with a large interval between them. Count to five.
8. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes in a slightly high register with a small interval between them. Count to five.
10. Play two long unequal notes in the lowest register with a large interval between them. Count to five.

289.

1. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
2. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to six.
3. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes in a somewhat high register with a small interval between them. Count to seven.
5. Play one short note in a middle register. Count to nine.
6. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
7. Play one short note in a slightly high register. Count to nine.
8. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
9. Play one long note in the highest register. Count to eight.
10. Play one long note in a somewhat high register. Count to ten.
11. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
12. Play two long unequal notes in a slightly high register with a large interval between them. Count to five.
13. Play one long note in a somewhat low register. Count to seven.
14. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to seven.

290.

1. Play one short note in a slightly low register. Count to six.
2. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
3. Play one short note in a middle register. Count to eight.
4. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
5. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
6. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
7. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to ten.
8. Play one long note in a somewhat low register. Count to five.
9. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to ten.

291.

1. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
2. Play one long note in the lowest register. Count to six.
3. Play two long unequal notes in a somewhat low register with a large interval between them. Count to seven.
4. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to six.
5. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to six.
6. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to nine.
7. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to eight.
8. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to eight.

292.

1. Play one long note in the highest register. Count to seven.
2. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to five.
3. Play two long unequal notes in the lowest register with a large interval between them. Count to six.
4. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to nine.
5. Play one short note in a somewhat high register. Count to five.
6. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to six.
7. Play two long unequal notes in a slightly low register with a small interval between them. Count to eight.
8. Play one short note in a somewhat high register. Count to seven.
9. Play one long note in the lowest register. Count to seven.

293.

1. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to six.
2. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
3. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
4. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to eight.
5. Play one long and one short note in the highest register with a large interval between them. Count to nine.
6. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to nine.
8. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to five.

294.

1. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
2. Play one short note in a middle register. Count to five.
3. Play one long note in a somewhat low register. Count to six.
4. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play one long and one short note in a slightly low register with a small interval between them. Count to eight.
6. Play one long and one short note in a slightly low register with a small interval between them. Count to six.
7. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
8. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
9. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
10. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to nine.
11. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
12. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
13. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
14. Play one long note in the highest register. Count to six.

295.

1. Play one short note in a somewhat low register. Count to nine.
2. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
3. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to six.
4. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
5. Play one long note in a somewhat high register. Count to ten.
6. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
7. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to eight.
8. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
9. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to eight.
10. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
11. Play one long note in a slightly low register. Count to seven.

296.

1. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to five.
2. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
3. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to ten.
4. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
5. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
6. Play two long unequal notes in a somewhat high register with a small interval between them. Count to five.
7. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
8. Play one long note in a middle register. Count to seven.
9. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to six.
10. Play one long note in a slightly high register. Count to seven.

297.

1. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to eight.
2. Play one long note in a somewhat low register. Count to five.
3. Play one long note in a middle register. Count to nine.
4. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to ten.
5. Play two long unequal notes in a slightly high register with a small interval between them. Count to five.
6. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
7. Play one short note in a slightly low register. Count to nine.
8. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to nine.

298.

1. Play two long unequal notes in a slightly low register with a large interval between them. Count to five.
2. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
3. Play one long and one short note in a somewhat high register with a large interval between them. Count to six.
4. Play one long note in a middle register. Count to nine.
5. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to five.
6. Play one short note in a somewhat high register. Count to nine.
7. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
8. Play one short note in a slightly high register. Count to eight.

299.

1. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to six.
3. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to nine.
4. Play one short note in a middle register. Count to five.
5. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
6. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
7. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.
8. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to five.
9. Play one long note in a middle register. Count to five.
10. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to nine.
11. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.

300.

1. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
2. Play one short note in a somewhat low register. Count to eight.
3. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
4. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
5. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to six.
6. Play one long note in a somewhat low register. Count to nine.
7. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to five.
8. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to five.
9. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to ten.
10. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
11. Play one long note in a somewhat low register. Count to nine.

301.

1. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
2. Play one long note in the lowest register. Count to five.
3. Play two long unequal notes in the highest register with a small interval between them. Count to five.
4. Play one long note in the lowest register. Count to seven.
5. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to six.
6. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
7. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
8. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.
9. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
10. Play one long note in a middle register. Count to eight.
11. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
12. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
13. Play one short note in a middle register. Count to seven.

302.

1. Play two long unequal notes in the lowest register with a small interval between them. Count to five.
2. Play one long note in the lowest register. Count to five.
3. Play one long note in a somewhat high register. Count to five.
4. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to five.
5. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
6. Play one long note in the lowest register. Count to seven.
7. Play two long unequal notes in a somewhat low register with a large interval between them. Count to eight.
8. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.
9. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
10. Play one short note in a somewhat high register. Count to five.
11. Play one short note in a somewhat high register. Count to ten.
12. Play two long unequal notes in a somewhat high register with a small interval between them. Count to ten.
13. Play two long unequal notes in the highest register with a small interval between them. Count to nine.

303.

1. Play one short note in a slightly low register. Count to six.
2. Play two long unequal notes in a middle register with a small interval between them. Count to six.
3. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
4. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
5. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
6. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
7. Play one long and one short note in the lowest register with a small interval between them. Count to six.
8. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
9. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to eight.
10. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
11. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.
12. Play one long note in a somewhat low register. Count to nine.
13. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to ten.
14. Play one long note in a slightly low register. Count to five.

304.

1. Play one long note in a slightly low register. Count to five.
2. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
3. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
4. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to five.
5. Play two long unequal notes in the lowest register with a large interval between them. Count to ten.
6. Play one long note in a slightly high register. Count to seven.
7. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
8. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
9. Play one long and one short note in a slightly high register with a small interval between them. Count to nine.
10. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.
11. Play one long note in a slightly low register. Count to six.
12. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to five.
13. Play one long note in the lowest register. Count to eight.

305.

1. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.
2. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
3. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.
4. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to six.
5. Play one long note in the lowest register. Count to seven.
6. Play one short note in a middle register. Count to eight.
7. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
8. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to six.
9. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
10. Play one long note in a middle register. Count to ten.
11. Play one long note in a slightly low register. Count to ten.
12. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to six.

306.

1. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
2. Play one long and one short note in a somewhat low register with a small interval between them. Count to nine.
3. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
4. Play one long and one short note in the highest register with a small interval between them. Count to nine.
5. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
6. Play one long note in the lowest register. Count to seven.
7. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to six.
8. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.

307.

1. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
2. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
3. Play one short note in a somewhat low register. Count to ten.
4. Play two long unequal notes in the highest register with a small interval between them. Count to six.
5. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
6. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
7. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
8. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
9. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
10. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
11. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to eight.
12. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to eight.
13. Play two long unequal notes in a middle register with a small interval between them. Count to six.
14. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.

308.

1. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
2. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
3. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to ten.
5. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
6. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to eight.
7. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
8. Play one long and one short note in a middle register with a large interval between them. Count to ten.
9. Play one long note in the lowest register. Count to eight.
10. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.

309.

1. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
2. Play one long note in the lowest register. Count to ten.
3. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
4. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
5. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
6. Play one long note in a slightly high register. Count to seven.
7. Play one long note in the lowest register. Count to six.
8. Play one long note in a slightly low register. Count to eight.
9. Play one long note in a slightly low register. Count to nine.
10. Play two long unequal notes in the highest register with a small interval between them. Count to five.
11. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
12. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
13. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to eight.
14. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to ten.

310.

1. Play one short note in a somewhat high register. Count to nine.
2. Play one long note in a slightly low register. Count to nine.
3. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to nine.
4. Play one short note in the lowest register. Count to six.
5. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to five.
6. Play two long unequal notes in a middle register with a large interval between them. Count to seven.
7. Play one short note in a somewhat low register. Count to six.
8. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
9. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
10. Play one long note in a somewhat high register. Count to nine.
11. Play two long unequal notes in a slightly low register with a small interval between them. Count to five.
12. Play one short note in a somewhat low register. Count to six.

311.

1. Play one short note in a slightly high register. Count to five.
2. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to eight.
3. Play one long note in a slightly high register. Count to seven.
4. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to ten.
5. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to six.
6. Play one long and one short note in a somewhat high register with a small interval between them. Count to eight.
7. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.
8. Play one long note in a middle register. Count to ten.
9. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.
10. Play two long unequal notes in the highest register with a small interval between them. Count to nine.

312.

1. Play two long unequal notes in a middle register with a small interval between them. Count to six.
2. Play two long unequal notes in the lowest register with a small interval between them. Count to eight.
3. Play one long note in a middle register. Count to ten.
4. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to six.
5. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to eight.
6. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to nine.
7. Play one long note in a middle register. Count to eight.
8. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.

313.

1. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.
2. Play one long note in a somewhat low register. Count to six.
3. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
4. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
5. Play one long note in a middle register. Count to six.
6. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
7. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
8. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to eight.
9. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
10. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
11. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
12. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to five.

314.

1. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
2. Play one short note in the highest register. Count to six.
3. Play one short note in a somewhat low register. Count to nine.
4. Play one long and one short note in a somewhat low register with a large interval between them. Count to ten.
5. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
6. Play one long note in the highest register. Count to ten.
7. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
8. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to six.
9. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to ten.
10. Play two long unequal notes in a middle register with a small interval between them. Count to seven.
11. Play one long note in a somewhat low register. Count to seven.
12. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.

315.

1. Play one long note in a middle register. Count to five.
2. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
3. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to five.
4. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
5. Play two long unequal notes in a slightly high register with a large interval between them. Count to six.
6. Play one short note in a somewhat high register. Count to seven.
7. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to seven.
8. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.

316.

1. Play two long unequal notes in the lowest register with a large interval between them. Count to five.
2. Play one long note in a slightly high register. Count to ten.
3. Play one long note in the lowest register. Count to ten.
4. Play one long note in a middle register. Count to nine.
5. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
6. Play one long note in a somewhat high register. Count to five.
7. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to six.
8. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to nine.

317.

1. Play one short note in the highest register. Count to nine.
2. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to six.
3. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
4. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
5. Play one long note in a slightly low register. Count to nine.
6. Play one long note in a slightly low register. Count to nine.
7. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
8. Play one short note in a middle register. Count to seven.

318.

1. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes in a slightly high register with a small interval between them. Count to seven.
3. Play two long unequal notes in a slightly low register with a small interval between them. Count to seven.
4. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
5. Play one short note in a somewhat high register. Count to nine.
6. Play one long note in a somewhat low register. Count to nine.
7. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to five.
8. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
9. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
10. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
11. Play one long note in a somewhat low register. Count to nine.
12. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to nine.

319.

1. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
2. Play one short note in a somewhat low register. Count to eight.
3. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
4. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to ten.
5. Play one short note in a slightly low register. Count to six.
6. Play one long note in a slightly low register. Count to eight.
7. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.
8. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
9. Play one long note in a middle register. Count to six.
10. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
11. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
12. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to seven.

320.

1. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
2. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
3. Play one long note in a somewhat high register. Count to five.
4. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
5. Play two long unequal notes in the lowest register with a large interval between them. Count to five.
6. Play one short note in a somewhat high register. Count to ten.
7. Play one long note in a somewhat high register. Count to nine.
8. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
9. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.

321.

1. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
2. Play one short note in a slightly high register. Count to nine.
3. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.
4. Play two long unequal notes in a somewhat high register with a large interval between them. Count to nine.
5. Play one long note in a middle register. Count to six.
6. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
7. Play one long and one short note in a middle register with a large interval between them. Count to nine.
8. Play one long note in a middle register. Count to seven.
9. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to eight.

322.

1. Play one long note in a slightly high register. Count to ten.
2. Play one long note in a slightly low register. Count to eight.
3. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to ten.
4. Play one long note in the highest register. Count to five.
5. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
6. Play one long note in a middle register. Count to six.
7. Play one long note in a middle register. Count to seven.
8. Play two long unequal notes in the lowest register with a small interval between them. Count to nine.
9. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
10. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to five.
11. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.

323.

1. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
2. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
3. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
4. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
5. Play one long note in a slightly low register. Count to seven.
6. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
7. Play one long note in a middle register. Count to ten.
8. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to ten.
10. Play one long note in a somewhat low register. Count to six.
11. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.

324.

1. Play one short note in a slightly high register. Count to seven.
2. Play one long note in the lowest register. Count to five.
3. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
4. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
5. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to seven.
6. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
7. Play one long note in a middle register. Count to seven.
8. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
9. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
10. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
11. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
12. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
13. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to nine.

325.

1. Play one short note in a somewhat high register. Count to nine.
2. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to five.
3. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
4. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.
5. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
6. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
7. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
8. Play one long note in the lowest register. Count to eight.
9. Play one short note in a slightly high register. Count to five.
10. Play one long note in a somewhat low register. Count to six.
11. Play two long unequal notes in a slightly low register with a small interval between them. Count to eight.
12. Play two long unequal notes in the lowest register with a small interval between them. Count to five.
13. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to six.

326.

1. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
2. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
3. Play one long note in a somewhat low register. Count to eight.
4. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to nine.
5. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
6. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
7. Play two long unequal notes in a somewhat high register with a large interval between them. Count to seven.
8. Play two long unequal notes in a somewhat high register with a small interval between them. Count to five.

327.

1. Play one long note in a middle register. Count to nine.
2. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to eight.
3. Play two long unequal notes in a somewhat low register with a small interval between them. Count to eight.
4. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
5. Play one long note in a slightly low register. Count to six.
6. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to ten.
8. Play one short note in the highest register. Count to five.
9. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to nine.

328.

1. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to ten.
2. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
3. Play one short note in the highest register. Count to five.
4. Play one short note in a somewhat high register. Count to nine.
5. Play one long note in a somewhat low register. Count to six.
6. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
7. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to seven.
8. Play one long note in a somewhat high register. Count to five.
9. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
10. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
11. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.

329.

1. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
2. Play one long note in the highest register. Count to eight.
3. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
4. Play one long note in a somewhat low register. Count to nine.
5. Play two long unequal notes in a middle register with a small interval between them. Count to five.
6. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
7. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to seven.
8. Play one long note in a slightly high register. Count to ten.
9. Play one long note in the highest register. Count to nine.
10. Play two long unequal notes in a somewhat low register with a large interval between them. Count to nine.
11. Play one long and one short note in the highest register with a large interval between them. Count to six.
12. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
13. Play one long note in a somewhat high register. Count to nine.

330.

1. Play two long unequal notes in a slightly high register with a large interval between them. Count to seven.
2. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
3. Play one long note in a somewhat low register. Count to nine.
4. Play one short note in a slightly high register. Count to ten.
5. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to seven.
6. Play one short note in a somewhat low register. Count to six.
7. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to ten.
8. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
9. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.

331.

1. Play one long and one short note in a slightly low register with a small interval between them. Count to eight.
2. Play one long note in the lowest register. Count to six.
3. Play one long and one short note in a somewhat high register with a large interval between them. Count to six.
4. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to eight.
5. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
6. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
7. Play one short note in a somewhat low register. Count to nine.
8. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
9. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
10. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.

332.

1. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
2. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to seven.
3. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
4. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to six.
5. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
6. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
7. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
8. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
9. Play one short note in a slightly low register. Count to five.

333.

1. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to six.
2. Play one long note in the highest register. Count to ten.
3. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
4. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
5. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to seven.
6. Play one long note in a somewhat low register. Count to six.
7. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to eight.
8. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to seven.
9. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
10. Play one long and one short note in a slightly low register with a small interval between them. Count to nine.
11. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.
12. Play one long note in a somewhat high register. Count to nine.

334.

1. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to seven.
2. Play two long unequal notes in a somewhat high register with a large interval between them. Count to seven.
3. Play one long note in a slightly high register. Count to six.
4. Play one long note in a somewhat low register. Count to ten.
5. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to five.
6. Play one long and one short note in a somewhat high register with a large interval between them. Count to eight.
7. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to six.
8. Play one short note in a somewhat high register. Count to seven.
9. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.

335.

1. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to six.
2. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to eight.
3. Play two long unequal notes in a slightly low register with a small interval between them. Count to five.
4. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
5. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to eight.
6. Play one short note in a somewhat high register. Count to ten.
7. Play one long note in a somewhat low register. Count to nine.
8. Play one long note in the lowest register. Count to nine.
9. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
10. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
11. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to nine.
12. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
13. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.

336.

1. Play one long and one short note in a slightly low register with a small interval between them. Count to six.
2. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to six.
3. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to seven.
4. Play one long note in a middle register. Count to six.
5. Play one short note in the highest register. Count to ten.
6. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
7. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to seven.
8. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to seven.

337.

1. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
2. Play one long note in a slightly low register. Count to ten.
3. Play two long unequal notes in a somewhat low register with a small interval between them. Count to seven.
4. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to five.
5. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to seven.
6. Play one short note in a somewhat low register. Count to six.
7. Play one long and one short note in a slightly high register with a large interval between them. Count to nine.
8. Play three long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
9. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.

338.

1. Play one short note in a somewhat low register. Count to five.
2. Play two long unequal notes in the lowest register with a small interval between them. Count to seven.
3. Play one short note in a slightly high register. Count to ten.
4. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes in a slightly low register with a small interval between them. Count to five.
6. Play one long note in a slightly low register. Count to six.
7. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
8. Play one long note in a somewhat high register. Count to five.
9. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
10. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
11. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
12. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
13. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.

339.

1. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to nine.
2. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
3. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
4. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to seven.
5. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
6. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
7. Play one long and one short note in a slightly low register with a small interval between them. Count to ten.
8. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
9. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
10. Play one long note in a somewhat low register. Count to seven.
11. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
12. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
13. Play one short note in the highest register. Count to five.
14. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.

340.

1. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
2. Play one long note in the lowest register. Count to seven.
3. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
4. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
5. Play one long note in a middle register. Count to seven.
6. Play one long note in a somewhat low register. Count to ten.
7. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to ten.
8. Play one long and one short note in the lowest register with a small interval between them. Count to nine.
9. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
10. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
11. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.

341.

1. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
2. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
3. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
4. Play one short note in a somewhat high register. Count to seven.
5. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
6. Play two long unequal notes in a slightly high register with a large interval between them. Count to ten.
7. Play one long note in a slightly high register. Count to ten.
8. Play two long unequal notes in a somewhat high register with a large interval between them. Count to five.
9. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to seven.
10. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
11. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.

342.

1. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
2. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.
3. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to ten.
4. Play two long unequal notes in a somewhat low register with a small interval between them. Count to eight.
5. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
6. Play one long note in a somewhat low register. Count to six.
7. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
9. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
10. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
11. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
12. Play two long unequal notes in the lowest register with a large interval between them. Count to eight.
13. Play two long unequal notes in the highest register with a small interval between them. Count to six.

343.

1. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
2. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to nine.
3. Play one long and one short note in the lowest register with a large interval between them. Count to five.
4. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to six.
5. Play one long note in a slightly low register. Count to five.
6. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to six.
7. Play one short note in a slightly low register. Count to ten.
8. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to ten.
9. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
10. Play one long note in the lowest register. Count to nine.

344.

1. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to six.
2. Play one long and one short note in a middle register with a large interval between them. Count to ten.
3. Play two long unequal notes in a slightly low register with a small interval between them. Count to nine.
4. Play two long unequal notes in a somewhat high register with a large interval between them. Count to six.
5. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
6. Play two long unequal notes in the lowest register with a large interval between them. Count to nine.
7. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to eight.
8. Play one long and one short note in the highest register with a small interval between them. Count to five.
9. Play one long note in a slightly high register. Count to five.

345.

1. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
2. Play two long unequal notes in the highest register with a large interval between them. Count to seven.
3. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to nine.
4. Play one long and one short note in a somewhat low register with a small interval between them. Count to seven.
5. Play one long note in a somewhat low register. Count to seven.
6. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
7. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
8. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
9. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to five.
10. Play one short note in the lowest register. Count to nine.
11. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to nine.

346.

1. Play two long unequal notes in the lowest register with a large interval between them. Count to eight.
2. Play one long and one short note in the lowest register with a small interval between them. Count to eight.
3. Play three long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
4. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.
5. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
6. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to eight.
7. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
8. Play one long and one short note in the lowest register with a large interval between them. Count to ten.

347.

1. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to eight.
2. Play one long note in a somewhat high register. Count to five.
3. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
4. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
5. Play one long note in the highest register. Count to five.
6. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
7. Play one long note in a slightly low register. Count to seven.
8. Play one long note in the lowest register. Count to nine.
9. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to seven.
10. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
11. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
12. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
13. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
14. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to eight.

348.

1. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
2. Play one long note in a slightly high register. Count to five.
3. Play one long and one short note in a slightly high register with a small interval between them. Count to six.
4. Play one long note in a somewhat high register. Count to seven.
5. Play two long unequal notes in the highest register with a small interval between them. Count to eight.
6. Play one long note in the lowest register. Count to eight.
7. Play one long note in a slightly high register. Count to six.
8. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to six.
9. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to eight.
10. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to five.
11. Play one short note in a middle register. Count to five.

349.

1. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
2. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
3. Play two long unequal notes in a somewhat low register with a small interval between them. Count to eight.
4. Play one long note in a slightly high register. Count to nine.
5. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to five.
6. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
7. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
8. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
9. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to eight.
10. Play a long note followed by two short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
11. Play one long and one short note in the lowest register with a large interval between them. Count to nine.
12. Play two long unequal notes in a slightly low register with a large interval between them. Count to nine.
13. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to eight.
14. Play one short note in the lowest register. Count to eight.

350.

1. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to six.
2. Play one long note in a slightly high register. Count to nine.
3. Play one long note in a middle register. Count to nine.
4. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.
5. Play one short note in the lowest register. Count to ten.
6. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.
7. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.
8. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to five.
9. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to six.
10. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to nine.

351.

1. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
2. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
3. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
4. Play one long note in the lowest register. Count to seven.
5. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to five.
6. Play one long note in a somewhat low register. Count to seven.
7. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
8. Play one short note in a slightly low register. Count to eight.
9. Play two long unequal notes followed by a break in the lowest register with a small interval between them. Count to five.
10. Play one long note in a middle register. Count to seven.
11. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to five.
12. Play one short note in a slightly high register. Count to six.
13. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.

352.

1. Play two long unequal notes in a slightly low register with a small interval between them. Count to eight.
2. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to seven.
3. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to eight.
4. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
5. Play two long unequal notes in a middle register with a large interval between them. Count to seven.
6. Play two long unequal notes in a slightly low register with a small interval between them. Count to nine.
7. Play one short note in a slightly high register. Count to eight.
8. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to eight.

353.

1. Play a long note followed by two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
2. Play one long note in a slightly low register. Count to seven.
3. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
4. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
5. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
6. Play one short note in a somewhat low register. Count to five.
7. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to five.
8. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to seven.
9. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.
10. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to ten.
11. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to seven.

354.

1. Play one short note in a slightly low register. Count to six.
2. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
3. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
4. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to seven.
5. Play one long note in a somewhat high register. Count to nine.
6. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
7. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
8. Play two long unequal notes in a somewhat high register with a large interval between them. Count to six.
9. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
10. Play one long and one short note in a middle register with a large interval between them. Count to ten.
11. Play one long note in a middle register. Count to six.

355.

1. Play one long note in a slightly high register. Count to ten.
2. Play one long and one short note in a slightly high register with a large interval between them. Count to eight.
3. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to five.
4. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
6. Play one long and one short note in the highest register with a large interval between them. Count to eight.
7. Play one long note in a middle register. Count to nine.
8. Play one long note in a middle register. Count to nine.
9. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to six.
10. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to five.

356.

1. Play one long note in the lowest register. Count to five.
2. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to six.
3. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
4. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to ten.
5. Play one long and one short note in a middle register with a large interval between them. Count to nine.
6. Play one short note in a middle register. Count to seven.
7. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to seven.
8. Play one long note in a slightly high register. Count to seven.
9. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
10. Play one long note in a somewhat high register. Count to eight.
11. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to seven.
12. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to seven.
13. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
14. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.

357.

1. Play two long notes and two short ones in a middle register with a small interval between the highest and the lowest. Count to six.
2. Play two long unequal notes in a somewhat low register with a small interval between them. Count to seven.
3. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
4. Play a long note followed by two short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
5. Play two long unequal notes in a slightly high register with a large interval between them. Count to six.
6. Play one long and one short note in the highest register with a small interval between them. Count to eight.
7. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to seven.
8. Play two long unequal notes in a slightly low register with a small interval between them. Count to ten.
9. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to six.
10. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
11. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to nine.

358.

1. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to six.
2. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
3. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to seven.
4. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
5. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
6. Play one short note in the lowest register. Count to five.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
8. Play one long note in a somewhat low register. Count to five.
9. Play one long and one short note in the lowest register with a small interval between them. Count to nine.
10. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to six.
11. Play one short note in a middle register. Count to seven.
12. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to nine.
13. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to five.

359.

1. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
2. Play one long and one short note in a slightly low register with a large interval between them. Count to seven.
3. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to seven.
4. Play one long and one short note in the highest register with a small interval between them. Count to ten.
5. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to seven.
6. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to six.
7. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
8. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to ten.
9. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.

360.

1. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
2. Play one long note in a slightly high register. Count to eight.
3. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to five.
4. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
5. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to five.
6. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to ten.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to seven.
8. Play one short note in a slightly high register. Count to five.
9. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to five.
10. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
11. Play one long and one short note in a slightly low register with a large interval between them. Count to eight.
12. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to ten.
13. Play one long and one short note in a slightly low register with a small interval between them. Count to eight.

361.

1. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
2. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
3. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to ten.
4. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
5. Play one long note in a middle register. Count to seven.
6. Play one long and one short note in a middle register with a small interval between them. Count to six.
7. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
8. Play two long unequal notes in a slightly low register with a small interval between them. Count to ten.
9. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to eight.
10. Play one long note in the highest register. Count to seven.
11. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
12. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to ten.
13. Play two long notes and one short in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
14. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.

362.

1. Play two long unequal notes followed by a break in a middle register with a large interval between them. Count to five.
2. Play one long note in a slightly high register. Count to ten.
3. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
4. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
5. Play one short note in a somewhat low register. Count to five.
6. Play one short note in a slightly low register. Count to seven.
7. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
8. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to six.
9. Play two long unequal notes in a somewhat low register with a small interval between them. Count to five.
10. Play one long note in the lowest register. Count to six.

363.

1. Play one long and one short note in a somewhat low register with a small interval between them. Count to ten.
2. Play one long note in a somewhat low register. Count to ten.
3. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
4. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.
5. Play one long note in the highest register. Count to six.
6. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to eight.
7. Play one long and one short note in a slightly low register with a small interval between them. Count to ten.
8. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
9. Play one long note in a slightly low register. Count to eight.
10. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
11. Play two long unequal notes in a somewhat low register with a large interval between them. Count to ten.
12. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
13. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to eight.

364.

1. Play one long note in a somewhat low register. Count to ten.
2. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
3. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to eight.
4. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
5. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
6. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
7. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
8. Play one long note in a somewhat low register. Count to six.
9. Play one long note in a slightly low register. Count to five.
10. Play one short note in a middle register. Count to nine.
11. Play one long note in a middle register. Count to six.
12. Play two long unequal notes in a somewhat high register with a large interval between them. Count to seven.
13. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to eight.

365.

1. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
2. Play a long note followed by three short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
3. Play one short note in a middle register. Count to ten.
4. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
5. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.
6. Play three long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
7. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
9. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to seven.
10. Play one long note in a somewhat low register. Count to six.
11. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
12. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to six.
13. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to nine.
14. Play one long and one short note in the highest register with a large interval between them. Count to seven.

366.

1. Play one long and one short note in a slightly low register with a large interval between them. Count to ten.
2. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to six.
3. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
4. Play one long and one short note in a somewhat high register with a small interval between them. Count to ten.
5. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to seven.
6. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to five.
7. Play one long note in a slightly high register. Count to six.
8. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to eight.
9. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.
10. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.
11. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.
12. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to six.

367.

1. Play one long and one short note in the highest register with a small interval between them. Count to eight.
2. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to nine.
3. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
4. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to five.
5. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
6. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to seven.
7. Play four long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.
8. Play two long unequal notes in a slightly low register with a small interval between them. Count to ten.
9. Play one long note in the lowest register. Count to ten.
10. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to ten.
11. Play one long and one short note in a slightly high register with a large interval between them. Count to nine.
12. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to six.
13. Play two long unequal notes in a somewhat high register with a small interval between them. Count to five.

368.

1. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
2. Play one short note in a middle register. Count to ten.
3. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to seven.
4. Play one long note in the lowest register. Count to five.
5. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
6. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
7. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
8. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to eight.
9. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
10. Play one short note in the lowest register. Count to seven.
11. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to ten.
12. Play one long note in a middle register. Count to six.
13. Play one short note in a somewhat high register. Count to nine.

369.

1. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to six.
2. Play one long note in a somewhat high register. Count to ten.
3. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to eight.
4. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
5. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
6. Play one long note in a somewhat low register. Count to nine.
7. Play two long unequal notes in the lowest register with a large interval between them. Count to seven.
8. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
9. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
10. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
11. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
12. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.

370.

1. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to six.
2. Play two long unequal notes in a slightly high register with a small interval between them. Count to nine.
3. Play two long notes and two short ones in a somewhat high register with a large interval between the highest and the lowest. Count to six.
4. Play one long and one short note in a middle register with a large interval between them. Count to eight.
5. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
6. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to six.
7. Play two long unequal notes in a middle register with a large interval between them. Count to eight.
8. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
9. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.
10. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to nine.
11. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to eight.
12. Play one long note in the highest register. Count to ten.
13. Play one long note in a somewhat high register. Count to nine.
14. Play one long note in a slightly high register. Count to six.

371.

1. Play one long and one short note in the lowest register with a large interval between them. Count to five.
2. Play one short note in a slightly high register. Count to six.
3. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to six.
4. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
5. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to eight.
6. Play one long note in a slightly high register. Count to six.
7. Play two long notes and two short ones in a slightly high register with a large interval between the highest and the lowest. Count to five.
8. Play one short note in a middle register. Count to ten.
9. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to five.
10. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.

372.

1. Play two long unequal notes in a middle register with a large interval between them. Count to eight.
2. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
3. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.
4. Play one long note in the lowest register. Count to seven.
5. Play two long unequal notes followed by a break in a slightly low register with a small interval between them. Count to five.
6. Play one short note in a middle register. Count to seven.
7. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to ten.
8. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
9. Play one long note in a somewhat high register. Count to six.
10. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
11. Play one long note in a slightly low register. Count to eight.
12. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to eight.

373.

1. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to nine.
2. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to eight.
3. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to five.
4. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
5. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
6. Play two long unequal notes in the lowest register with a small interval between them. Count to ten.
7. Play one long note in a slightly low register. Count to eight.
8. Play two long unequal notes followed by a break in a somewhat high register with a large interval between them. Count to five.
9. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
10. Play one long note in the lowest register. Count to ten.
11. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
12. Play two long unequal notes in the highest register with a small interval between them. Count to ten.

374.

1. Play three long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to seven.
2. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to nine.
3. Play two long notes and one short in a slightly high register with a large interval between the highest and the lowest. Count to eight.
4. Play one short note in a slightly low register. Count to six.
5. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to eight.
6. Play one long and one short note in the lowest register with a large interval between them. Count to ten.
7. Play one long note in a slightly low register. Count to seven.
8. Play two long unequal notes in a middle register with a large interval between them. Count to seven.
9. Play two long unequal notes in a slightly low register with a large interval between them. Count to nine.
10. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
11. Play one long note in the lowest register. Count to six.
12. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.

375.

1. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
2. Play one short note in the highest register. Count to five.
3. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to eight.
4. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
5. Play two long notes and two short ones in a slightly low register with a small interval between the highest and the lowest. Count to seven.
6. Play one long note in a somewhat high register. Count to ten.
7. Play one long note in a slightly low register. Count to seven.
8. Play one long note in a somewhat high register. Count to nine.

376.

1. Play one long note in a middle register. Count to eight.
2. Play one long note in a slightly high register. Count to seven.
3. Play one short note in the highest register. Count to five.
4. Play one long note in a slightly high register. Count to seven.
5. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to six.
6. Play two long notes and two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
7. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
8. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to nine.
9. Play two long unequal notes in a somewhat low register with a small interval between them. Count to eight.
10. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
11. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to ten.
12. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to six.
13. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to seven.
14. Play three long unequal notes in a middle register with a small interval between the highest and the lowest. Count to seven.

377.

1. Play two long unequal notes in a somewhat high register with a small interval between them. Count to eight.
2. Play two long unequal notes in a slightly low register with a small interval between them. Count to nine.
3. Play one long and one short note in a somewhat high register with a large interval between them. Count to six.
4. Play two long unequal notes in a slightly low register with a large interval between them. Count to seven.
5. Play one long note in a slightly low register. Count to eight.
6. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to six.
7. Play a long note followed by two short ones in a slightly high register with a large interval between the highest and the lowest. Count to ten.
8. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to seven.
10. Play one long note in the highest register. Count to five.
11. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to nine.

378.

1. Play one short note in the lowest register. Count to nine.
2. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
3. Play one long note in the highest register. Count to eight.
4. Play one long note in a somewhat high register. Count to ten.
5. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to nine.
6. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to six.
7. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to ten.
8. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to six.
9. Play one long note in a middle register. Count to nine.
10. Play one long and one short note in a somewhat low register with a large interval between them. Count to eight.
11. Play one long note in a slightly low register. Count to five.
12. Play one long note in a slightly high register. Count to seven.
13. Play two long unequal notes followed by a break in a middle register with a small interval between them. Count to seven.
14. Play two long notes and one short in the lowest register with a small interval between the highest and the lowest. Count to nine.

379.

1. Play one long note in a slightly low register. Count to six.
2. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to nine.
3. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
4. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in a middle register with a small interval between them. Count to eight.
6. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to nine.
7. Play one long note in a somewhat high register. Count to eight.
8. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to eight.
9. Play one long and one short note in a somewhat low register with a large interval between them. Count to seven.
10. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.

380.

1. Play four long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to five.
2. Play one long and one short note in the lowest register with a small interval between them. Count to ten.
3. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
4. Play two long unequal notes in the highest register with a small interval between them. Count to eight.
5. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
6. Play one long note in a middle register. Count to nine.
7. Play one long note in a somewhat low register. Count to six.
8. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to six.
9. Play a long note followed by two short ones in the highest register with a large interval between the highest and the lowest. Count to five.
10. Play one long note in a slightly high register. Count to ten.
11. Play one long note in a slightly low register. Count to nine.
12. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
13. Play one long note in the lowest register. Count to nine.

381.

1. Play one short note in the lowest register. Count to six.
2. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
3. Play one long note in a somewhat high register. Count to six.
4. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to ten.
5. Play two long unequal notes in a middle register with a large interval between them. Count to six.
6. Play three long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
7. Play one long and one short note in a middle register with a large interval between them. Count to six.
8. Play one long and one short note in a somewhat high register with a small interval between them. Count to five.

382.

1. Play one short note in a slightly low register. Count to eight.
2. Play one short note in a slightly high register. Count to six.
3. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
4. Play three long unequal notes in a middle register with a large interval between the highest and the lowest. Count to ten.
5. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
6. Play one long note in a somewhat low register. Count to nine.
7. Play four long unequal notes in a middle register with a small interval between the highest and the lowest. Count to five.
8. Play a long note followed by three short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes in the lowest register with a small interval between them. Count to seven.
10. Play one long note in the highest register. Count to eight.
11. Play one long note in a slightly high register. Count to six.
12. Play a long note followed by three short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
13. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.

383.

1. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
2. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to six.
3. Play two long unequal notes followed by a break in the lowest register with a large interval between them. Count to eight.
4. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to six.
5. Play one short note in a middle register. Count to five.
6. Play one short note in the lowest register. Count to nine.
7. Play one long and one short note in a somewhat low register with a large interval between them. Count to nine.
8. Play two long notes and one short in a middle register with a small interval between the highest and the lowest. Count to nine.
9. Play one short note in a somewhat high register. Count to ten.
10. Play one long and one short note in the lowest register with a small interval between them. Count to ten.
11. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
12. Play one long note in a middle register. Count to seven.

384.

1. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to eight.
2. Play four long unequal notes in a somewhat high register with a small interval between the highest and the lowest. Count to six.
3. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to six.
4. Play two long notes and one short in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
5. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to seven.
6. Play one short note in the lowest register. Count to ten.
7. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
8. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to eight.
9. Play three long unequal notes in a slightly low register with a large interval between the highest and the lowest. Count to ten.
10. Play a long note followed by three short ones in a slightly high register with a large interval between the highest and the lowest. Count to eight.
11. Play one long note in the highest register. Count to seven.
12. Play one short note in a somewhat high register. Count to five.
13. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to seven.
14. Play one long and one short note in the lowest register with a small interval between them. Count to ten.

385.

1. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to nine.
2. Play four long unequal notes in a somewhat high register with a large interval between the highest and the lowest. Count to seven.
3. Play a long note followed by two short ones in the lowest register with a small interval between the highest and the lowest. Count to ten.
4. Play a long note followed by three short ones in a slightly low register with a small interval between the highest and the lowest. Count to nine.
5. Play one long note in a slightly low register. Count to six.
6. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to nine.
7. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to eight.
8. Play a long note followed by three short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
9. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to five.
10. Play one short note in the highest register. Count to eight.

386.

1. Play two long unequal notes followed by a break in the highest register with a large interval between them. Count to five.
2. Play one long note in a slightly low register. Count to nine.
3. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to five.
4. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to nine.
5. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
6. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
7. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.
8. Play one long note in a middle register. Count to seven.
9. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to eight.
10. Play one long note in the lowest register. Count to nine.
11. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to six.

387.

1. Play a long note followed by three short ones in a middle register with a large interval between the highest and the lowest. Count to five.
2. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
3. Play one short note in a somewhat low register. Count to seven.
4. Play one long note in the lowest register. Count to seven.
5. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to ten.
6. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to six.
7. Play a long note followed by two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to eight.
8. Play a long note followed by three short ones in a somewhat low register with a small interval between the highest and the lowest. Count to six.

388.

1. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
2. Play a long note followed by two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
3. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
4. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to six.
5. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to five.
6. Play a long note followed by three short ones in the highest register with a large interval between the highest and the lowest. Count to five.
7. Play a long note followed by three short ones in a slightly high register with a small interval between the highest and the lowest. Count to six.
8. Play one long note in a somewhat high register. Count to five.
9. Play one long note in a somewhat high register. Count to eight.
10. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to ten.
11. Play one long note in a somewhat low register. Count to six.

389.

1. Play one long note in the highest register. Count to five.
2. Play one long note in a somewhat low register. Count to nine.
3. Play one long note in a somewhat high register. Count to ten.
4. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.
5. Play one long and one short note in a slightly low register with a large interval between them. Count to ten.
6. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to nine.
7. Play one short note in the lowest register. Count to nine.
8. Play one long note in a somewhat low register. Count to five.
9. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to eight.
10. Play two long unequal notes followed by a break in a somewhat high register with a small interval between them. Count to seven.
11. Play two long unequal notes in a somewhat low register with a large interval between them. Count to nine.

390.

1. Play one short note in the lowest register. Count to eight.
2. Play one long note in the highest register. Count to seven.
3. Play two long notes and one short in the highest register with a large interval between the highest and the lowest. Count to seven.
4. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to five.
5. Play a long note followed by two short ones in the lowest register with a large interval between the highest and the lowest. Count to nine.
6. Play one short note in a slightly high register. Count to nine.
7. Play a long note followed by three short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
8. Play two long unequal notes followed by a break in a slightly high register with a small interval between them. Count to eight.
9. Play a long note followed by two short ones in a middle register with a large interval between the highest and the lowest. Count to six.

391.

1. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.
2. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to ten.
3. Play two long unequal notes followed by a break in a somewhat low register with a large interval between them. Count to seven.
4. Play two long notes and two short ones in a middle register with a large interval between the highest and the lowest. Count to six.
5. Play three long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to ten.
6. Play one long and one short note in a somewhat high register with a small interval between them. Count to nine.
7. Play two long notes and one short in a slightly low register with a small interval between the highest and the lowest. Count to six.
8. Play four long unequal notes in the lowest register with a small interval between the highest and the lowest. Count to seven.
9. Play two long unequal notes in the highest register with a large interval between them. Count to five.
10. Play four long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
11. Play one long note in a slightly high register. Count to seven.
12. Play four long unequal notes in the highest register with a large interval between the highest and the lowest. Count to six.

392.

1. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to six.
2. Play two long unequal notes in the lowest register with a large interval between them. Count to eight.
3. Play two long notes and one short in the highest register with a small interval between the highest and the lowest. Count to nine.
4. Play two long unequal notes in a slightly high register with a large interval between them. Count to six.
5. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to six.
6. Play two long unequal notes in a somewhat low register with a large interval between them. Count to six.
7. Play two long unequal notes in a middle register with a large interval between them. Count to seven.
8. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to eight.
9. Play one long and one short note in a slightly low register with a large interval between them. Count to five.
10. Play two long unequal notes in a slightly high register with a small interval between them. Count to seven.
11. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to nine.
12. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to ten.
13. Play two long notes and two short ones in a slightly high register with a small interval between the highest and the lowest. Count to seven.

393.

1. Play one long note in a slightly low register. Count to ten.
2. Play two long notes and two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
3. Play one short note in a slightly high register. Count to seven.
4. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to nine.
5. Play one long and one short note in a slightly high register with a large interval between them. Count to seven.
6. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to six.
7. Play one short note in a slightly high register. Count to eight.
8. Play a long note followed by two short ones in the highest register with a small interval between the highest and the lowest. Count to eight.
9. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to nine.
10. Play three long unequal notes in the highest register with a large interval between the highest and the lowest. Count to ten.
11. Play one long and one short note in a slightly high register with a small interval between them. Count to ten.
12. Play two long notes and two short ones in the lowest register with a small interval between the highest and the lowest. Count to five.
13. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.

394.

1. Play one long note in a slightly low register. Count to five.
2. Play three long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to nine.
3. Play one long and one short note in a somewhat high register with a large interval between them. Count to eight.
4. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to six.
5. Play two long unequal notes in a slightly high register with a large interval between them. Count to nine.
6. Play two long unequal notes followed by a break in the highest register with a small interval between them. Count to five.
7. Play two long notes and one short in a slightly low register with a large interval between the highest and the lowest. Count to ten.
8. Play four long unequal notes in a slightly high register with a large interval between the highest and the lowest. Count to six.

395.

1. Play four long unequal notes in a somewhat low register with a large interval between the highest and the lowest. Count to ten.
2. Play one long note in a slightly high register. Count to five.
3. Play four long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to ten.
4. Play one long and one short note in a somewhat low register with a large interval between them. Count to six.
5. Play three long unequal notes in a somewhat low register with a small interval between the highest and the lowest. Count to six.
6. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to ten.
7. Play two long unequal notes in the highest register with a large interval between them. Count to five.
8. Play two long unequal notes in a somewhat low register with a small interval between them. Count to five.
9. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to five.
10. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to ten.
11. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to nine.
12. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to seven.
13. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to five.

396.

1. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to eight.
2. Play two long notes and one short in a slightly high register with a small interval between the highest and the lowest. Count to five.
3. Play four long unequal notes in the highest register with a small interval between the highest and the lowest. Count to seven.
4. Play a long note followed by three short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
5. Play four long unequal notes in a middle register with a large interval between the highest and the lowest. Count to seven.
6. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to nine.
7. Play two long unequal notes in the highest register with a small interval between them. Count to ten.
8. Play two long notes and one short in a somewhat high register with a large interval between the highest and the lowest. Count to five.
9. Play a long note followed by three short ones in a middle register with a small interval between the highest and the lowest. Count to eight.

397.

1. Play a long note followed by three short ones in a somewhat high register with a large interval between the highest and the lowest. Count to five.
2. Play three long unequal notes in the lowest register with a large interval between the highest and the lowest. Count to seven.
3. Play two long notes and two short ones in a somewhat high register with a small interval between the highest and the lowest. Count to nine.
4. Play two long unequal notes in a slightly high register with a small interval between them. Count to eight.
5. Play two long unequal notes followed by a break in a somewhat low register with a small interval between them. Count to eight.
6. Play a long note followed by two short ones in a somewhat low register with a small interval between the highest and the lowest. Count to eight.
7. Play two long notes and two short ones in the highest register with a small interval between the highest and the lowest. Count to seven.
8. Play a long note followed by two short ones in a middle register with a small interval between the highest and the lowest. Count to five.
9. Play one long and one short note in a middle register with a small interval between them. Count to five.
10. Play two long notes and two short ones in a somewhat low register with a large interval between the highest and the lowest. Count to six.
11. Play one long note in a slightly low register. Count to ten.
12. Play one long note in a somewhat high register. Count to nine.

398.

1. Play one long note in a somewhat high register. Count to eight.
2. Play one short note in a middle register. Count to six.
3. Play one long and one short note in the highest register with a large interval between them. Count to seven.
4. Play one short note in a somewhat high register. Count to ten.
5. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to seven.
6. Play two long unequal notes followed by a break in a slightly high register with a large interval between them. Count to ten.
7. Play one long and one short note in a somewhat low register with a small interval between them. Count to eight.
8. Play four long unequal notes in a slightly low register with a small interval between the highest and the lowest. Count to five.
9. Play one long and one short note in the lowest register with a large interval between them. Count to nine.

399.

1. Play two long notes and one short in a middle register with a large interval between the highest and the lowest. Count to five.
2. Play three long unequal notes in a slightly high register with a small interval between the highest and the lowest. Count to five.
3. Play one long note in the highest register. Count to ten.
4. Play two long unequal notes in the lowest register with a small interval between them. Count to eight.
5. Play two long notes and two short ones in the highest register with a large interval between the highest and the lowest. Count to seven.
6. Play two long unequal notes in a middle register with a small interval between them. Count to eight.
7. Play a long note followed by two short ones in a slightly low register with a large interval between the highest and the lowest. Count to five.
8. Play one long and one short note in a somewhat high register with a large interval between them. Count to six.
9. Play one long note in the highest register. Count to nine.

400.

1. Play one long note in a slightly low register. Count to seven.
2. Play one long and one short note in the lowest register with a large interval between them. Count to ten.
3. Play one long and one short note in the lowest register with a small interval between them. Count to nine.
4. Play two long unequal notes followed by a break in a slightly low register with a large interval between them. Count to eight.
5. Play one long note in a somewhat low register. Count to five.
6. Play two long notes and one short in the lowest register with a large interval between the highest and the lowest. Count to nine.
7. Play two long notes and one short in a somewhat low register with a large interval between the highest and the lowest. Count to seven.
8. Play two long unequal notes in a middle register with a small interval between them. Count to ten.
9. Play two long notes and two short ones in a slightly low register with a large interval between the highest and the lowest. Count to nine.
